

1. Tri-fold:

- a. Contents (1st blank is for tri-fold; 2nd is for presentation)
 - i. _____ Title
 - ii. _____ Short summary of the problem
 - iii. _____ Essential features of the solution
 - iv. _____ New features/remaining problems to be addressed
 - v. _____ Iterations conveying breadth of work
 - vi. At least two problems or discoveries and solutions to (or process for) each
 1. _____ Problem/discovery 1
 2. _____ Solution/process 1
 3. _____ Problem/discovery 2
 4. _____ Solution/process 2
- b. _____ Did the presentation convey all of the information described in the tri-fold?
- c. _____ Attractiveness of the tri-fold.
- d. _____ Is the tri-fold organized in a sensible manner?
- e. _____ Is everything on the tri-fold easy to read, see, and understand? [fyi, I can make color prints for you]

2. Presentation:

- a. _____ Adherence to time limit. Presentations should be about 4 minutes long. [Points will be deducted for any presentation over 8 minutes.]
- b. _____ Preparation for the presentation. You should be ready to go, with all of the glitches worked out ahead of time.
- c. _____ Clarity. Can we understand you? Was your volume appropriate? Were you articulate?
- d. _____ Organization. Did you spend your 4 minutes in a sensible way, focusing on the most important parts, but covering everything?

Capstone Project **Contest** Scoring Criteria

1. _____ **Clarity of the stated problem**
2. _____ **Effectiveness of the design**
3. _____ **Novelty of the design**
4. _____ **Quantity of documented iterations.**
5. _____ **Quality of documented problem-solving.**
6. _____ **Readiness of the design**
7. _____ **Overall impression of the project.**
8. _____ **Clarity and effectiveness of the presentation**
