Solar Data Collection

Minimum data points required for a report to be issued.

For contractors who submit data via the batch spreadsheet method, please list customer data horizontally on an Excel spreadsheet, CSV File, or Google Sheet. Sample template here.

Please send batch reports to: contractor.support@pearlcertification.com

I. **Homeowner Information**

- A. Homeowner Name
- B. Property Address
- C. Homeowner Email

I. **Solar/PV System Installation**

- A. Type of Ownership (owned/financed/leased/PPA)
- B. System Size
- C. Utility Provider or Rate (or we can default to State Average)
- D. Install Date
- E. Inverter Manufacturer

Supplemental data points available for inclusion on a report.

While these data points are not required, including them, if possible, makes for a more robust report for homeowners.

I. **Solar/PV Installation**

- A. Panel Manufacturer
- B. Panel Model Number
- C. Array Type (roof-mounted/ground-mounted)
- D. Inverter Manufacturer
- E. Inverter Model Number
- F. Annual Energy Production (kWh)
- G. Electricity Offset (%)

I. **Energy Storage/Charging**

- F. Battery Manufacturer
- G. Battery Model Number
- H. EV Charger Manufacturer
- I. EV Model Number

Pearl's data team will pull in all efficiency ratings and data, IF PROVIDED, with the full manufacturer and model numbers.
