

THE HISTORY OF baciiiiii

THE SCHOOL

The school was founded by commissioner Lorenzo Valerio send by King Vittorio Emanuele II ruled the new Kingdom of Italy.

It was open in November of 1861.

Lorenzo Valerio

The school housed students from outside the region and the students were very good in civil and cultural fields.

A famous student was Bruno Da Osimo writer that he frequented “Liceo Magistrale Bernardino Baldi”.

Party in classe!!

Liceo Bernardino Baldi

The secondary school was built in 1923.

The school offered a combination of scientific and humanistic tradition but today the main subject have slightly change because the humanistic subject became

fundamental of s**baci**chool.

There are a lot of projects concerning all types of subject.

Liceo Laurana

In The 60's It is also founded the Scientific School.

This school is especially based of scientific Subject.

1962-1969 the High school allowed to subscribe to any university.

Liceo Laurana

In 1996 The school “Bernardino Baldi” became “Liceo Socio-Psico-Pedagogico”

According to the school rules, the students must be comfortable with for than self and with others, because they spend part of the day at school.

For this the school organize many school trips and educational trips.

Experience “Scuola-Lavoro”

Important for the school is also the experience “Scuola-Lavoro”.

This experience put in contact the boys to the world of work and the children are very happy to make this experience.

The works are many: work in hospital, in contact with sick elderly, work in the school, in contact with children and many others job.
