Subject Line: Sneaky trick to get strippers home with you (without paying)

Hey man,

I bet the last time you went to a strip club (or "gentleman's club" to use the polite term) you had your eye on a super-sexy dancer you would have LOVED to bend over back at your place...

I'm talking about seeing her OUTSIDE of the club, without having to blow your cash on lap dances and overpriced drinks, and going home alone horny and alone.

If you want to know the "shortcuts" to getting strippers to meet you away from the club for some one-on-one bedroom fun...WITHOUT having to pay for the pleasure...give this video a quick look:

Strip clubs across the USA and the world have some of the sexiest, most erotic women...and they can be extremely cool and fun to hang out with...

But most guys don't have a clue about what makes strippers tick, so they stay in the "customer zone" and wind up with nothing but blue balls and some mental jerk-off material for later on.

Well I'm here to tell you, these stunners CAN be all yours...

As long as you use a set of simple, proven tactics to disrupt their patterns and frame yourself the right way.

There are "psychological buttons" you can push that get a stripper's mind OFF of business, and onto hanging out with you when she finishes her shift:

This video might disappear at any time, because these are secrets the strip club bosses do NOT want you to know (and the "Strip Club Jedi Master" who made this wild video is taking some serious heat...)

So watch this now and grab these tactics while you can:

Hey,

Did you hear about the crazy "seduction genius" in Las Vegas who figured out a step-by-step system that any guy can use, to go into any strip club, and sleep with the girls...for free?

Yes, there are special tactics you can use on strippers to "hack" into their minds, turn them on, and get them to STOP viewing you as a customer...

...and see you as a guy they want to BE WITH when they get off work.

And then, back at your place, they'll show you their BEST moves ;))

Watch this video while it's still online, because you're about to discover how to "turn the tables" at any strip club you go to, and get them to want YOU...instead of what's inside your wallet.

(This easy, step by step system also works on all types of "hired guns" - waitresses, female bartenders, and any girl who makes a living by pretending to flirt with customers...)

The truth is, most guys go to strip clubs to drool over the girls, blow a bunch of money on lap dances, and go home horny and alone...

...because they don't actually think these stunners can be SEDUCED.

But luckily, you're about to get your hands on a proven set of tactics and techniques that any guy can learn in minutes:

I know the guy who created this video is dealing with some serious heat right now...

Because the strip club bosses do NOT want these secrets being shown to the public...

P.S. If you say you're "not really into strippers," I still urge you to learn the mind-blowing tactics in [this video](#)...because they are HIGHLY effective on all types of "9s" and "10s" (extremely desirable girls who get tons of attention from men...)

I've actually used these secrets with CRAZY success at "regular" bars and nightclubs, too:
