

Hi <client first name>,

Now that we have a category structure in place, with assets migrated over – we can start implementing the <integration name (MV CSM check order form)> that <client name> purchased.

I would like to introduce you to Victor Vallido on our integrations team, who will be taking lead on the integration setup and implementation.

So with that, I will hand it over to (insert email tag @Victor Vallido) to take over from here on the connector piece moving forward.

Thanks!
