WHAT: Mercy For Animals celebrated 25 years of driving meaningful change for farmed animals around the globe. To mark this milestone, Mercy For Animals invited change agents from across the animal protection, environmental, and plant-based food sectors to join them in looking ahead to a world of opportunities to build on this success.

Guests indulged in sumptuous vegan delicacies, partook in a unique auction, enjoyed captivating entertainment, and were inspired by esteemed honorees. Mercy For Animals reflected on past achievements and set their sights on a promising future—one where animals are respected, protected, and free.

Eventique planned and produced the landmark 25th anniversary gala. At a time when we are increasingly flooded with information, and it's challenging to get a message across, Eventique takes a thoughtful and artistic approach to developing memorable experiences that stir up emotions, conversations, and shareable moments.

"Eventique has a long history of supporting cause-related organizations by way of our production and creative services, and we are deeply honored that Mercy For Animals has given us the opportunity to partner with them in this milestone event," said Eventique founder and CEO Liron David.

Mercy For Animals is the world's leading nonprofit dedicated to ending industrial animal agriculture by constructing a just and sustainable food system.
