

Robin Goodfellow's Wand

(from "Tall Tales of the Wee Folk")

Robin Goodfellow (also known as Puck) has perfected the art of *polymorphing* others, and has placed this ability into a wand. He can, with the use of this wand, *polymorph* opponents to the extent that he is able to transform just parts of another being, if he so wishes; for example, he has been known to change a man's head into that of an ass. He can also cast such a partial polymorph, with limited duration, as a curse. Each use of the wand that partially polymorphs an individual costs one charge from the wand.
