Version 1.0

Character Type: Main Character

Name: Meyer

Gender: Male

Age: 13

Height: 5'6"

Body Type: Thin, Fit Frame

Personality

- A youthful confidence. He loves The World, and The World loves him back.
- Brutishly frank. Does not hold back his ideals and would do everything for it to come into fruition.
- Most of the time, his motive would be driven by raw intuition – whether it belongs to him or not is another question.
- Regularly goes through internal strife due to clashing views and ideals. Nevertheless, he places compassion over all.
- Despite his attempt at being outgoing, he omits a lot of what he wants to say.

History

- His origins are largely unknown. Neither he or the people around him know where he came from or when he was transferred to The Orphanage.

- Up until his ninth year, he was left to his own devices. He would regularly find himself alone – albeit not ostracized – deprived of interaction.
- As the number of senior Exemplary Saints of his age group started to dwindle, his peers would finally open up a conversation with him.
- "You're different – is what The Caretakers tell us." Meyer, now knowing even a fragment of the truth, stiffens up from the realization.
 - Trying his best to fill in the gaps of being alone over the years, he soon started to brighten up.
- This leads up to the current timeline (in his tenth year) where he finally meets his Roommate.

Motivations

- His insurmountable desire to see The World. The desire might not be originally his, but it was all too real. It might as well be his own.
 - The emergence of the strange dreams that he was getting in his thirteenth year. Uncomfortable lapses in his memories and cryptic thoughts that would leave him dazed for hours on end.
 - Consequently, this only left him with more questions than answers.
- "I wonder what The Outside's like –" Before he could even finish his sentence, he was physically silenced by a hand covering his mouth.

Relationships

- **The Roommate** - Meyer was overjoyed when he found out that he would be getting a Roommate. However, his spirit would then be watered down after realizing just how chilling his first interaction with his Roommate could be. Still, he decided not to falter and continued doing what he does best – being as pushy as he possibly can. To him, his Roommate reminded him of how he was back when he used to be alone – whether that may be true or not is another question.
- **The Voices** - Driven by a need to repay The Voices' kindness, Meyer stuck to them like a glue, wanting to keep them company. Unbeknownst to him, it was the other way around.

Character Type: Main Character

Name: The Roommate, "Ori"

Gender: Female

Age: 14

Height: 5'2"

Body Type: Thin, Petite Frame

Personality

- Elegant. The air of cold aristocracy graces her every move.
- She is usually mistaken to be uninterested; however, she is quite stern.
- Rarely speaks for herself. Only acts according to what the situation calls for.
- Coincidentally, she has very good judgment and acumen.
- Feels that she has to meet a lot of expectations.

History

- **DISCLAIMER:** Much of her history remains unknown to Meyer and to The Reader until the very late stages of the story.
- An illegitimate child. All that she knows is that she was abandoned for being one.
 - Lived most of her early days in the slums, residing amongst the children that were also abandoned.

- Despite the harsh living conditions, she pursued to stay alive and continued on.
- It was the winter of her sixth year. A shivering Ori is struggling to stay warm in the rubble of what used to be a house. Her breathing and her eyesight had both started to become impaired from the intense cold. Alas, she collapses shortly after.

Motivations

- After being saved just before being devoured by the blizzard, Ori finds herself clasping a mug of hot water in front of a crackling fire.
 - She seems unable to comprehend what was actually happening to her, but all she knows is that this place is much better than where it used to be.
 - Shortly after, a figure of a seven-foot tall giant enters the warm shed. He wore the hide of a furry predator as a cloak, and much of his redeeming features were hidden. The dark setting of the room didn't help at all either.
- "You seem to match her. Say, what's your name?" were the first words she had heard from this individual. The events that would soon transpire would change her fate around. A lead – one that could possibly let her meet her progenitors.

Relationships

- **Meyer** - Tasked by The Orphanage to closely observe him. As it was the only thing she was told to do, she didn't bother to do any more, much more any less. However, as time passes by where she regularly spends her daily life with him, she soon warms up to him. Still upholding her mission, she begins to harbor an attachment to Meyer as he had a certain familiarity that reminded her of her savior.
- **The Orphanage** - Her superiors. She swore no loyalty to them. But since she had a debt to repay, she takes up the mission that only she could accomplish. She spent the latter half of her life being supervised by The Orphanage before being transferred to the living quarters where The Exemplary Saints resided in.
