How to use:

Report Requirements: Each sensemaking report must include (800-1,200 words total):

1. **Problem & Impact (400-500 words)**
   - What specific Ethereum problem are you addressing?
   - Why is this urgent and significant right now?
   - What evidence supports the importance of this problem?
   - **Meaning Check**: How do you know this matters deeply to users, not just captures attention or generates buzz?
2. **Sensemaking Analysis (200-400 words)**
   - What sensemaking tools did you use?
   - What sources did you use for this analysis? I.e. blog posts, ecosystem leaders, etc.
   - How did you aggregate your data/findings?
3. **Gitcoin's Unique Role & Fundraising (200-400 words)**
   - How can Gitcoin uniquely help solve this problem?
   - Why does a network better solve this than by existing organizations?
   - **Fundraising Reality Check**: Can you raise $50K+ for this domain? Who are the likely sponsors? Have any of them committed already?
4. **Success Measurement & Reflection (200-300 words)**
   - What specific outcomes will show success within 6 months?
   - How will we measure genuine impact beyond just activity metrics?
   - **Satisfaction Test**: What will make the Ethereum community genuinely glad we funded this domain long-term?
5. **Domain information**
   - Are you proposing a domain for GG24? If so, please elaborate.
   - Who will be the domain experts?
   - Which mechanism(s) will you be pitching to run the domain on?
   - Do you foresee the domain including multiple sub rounds?
