Q&A

- Mathematica available to Fresno State, how, why, how much did it cost?
- Where to give the old phones, what is the strategy for gathering all the phones?
- There are rooms in the eng building where there are not enough electrical plugs, is it a dead end or there are potential solutions? (use of portable batteries for students to charge laptop, USB devices).
- Documents such as the syllabus template remain an MS Word document. It would be worth investigating ways to better harmonize the creation of the syllabus template so it is easier for faculty members to edit it.
- There are still online courses, what are the spaces in the different buildings where students can stay, with the necessary equipment to charge laptops and USB devices.
- What is the plan for creating or enhancing XR learning approaches, creation of a room with XR/VR devices for students? There is a space in the library, but it is not enough for teaching.

Nothing to report from the different colleges.

Adjourned at 12.50pm.
