Problem Statement

Have you ever gone somewhere, had a delicious meal, and then remember part of the ingredients or the name of the dish? What if you have a craving for the same dish but don't know where to order it or how to make it yourself? What ensures that your hunger pangs are quenched?

Solution

With over 500,000 recipes from professional chefs, Tasty fills this void by allowing users to search for a certain item and be provided with recipes that incorporate it. Users can also search for a recipe using the name of a certain dish in Tasty. Instant Recipes are the future of home cooking.

MVP

- Search bar
- Dark and light mode
- Contact form
- Hero section

Future Plans

- Link cooking videos for visual learners

- Add post section for people to post nice recipes

- Add chefs for hire details

- Add ingredients shop where one can order a specific meals ingredient at once

- Add payment system
