interexy

Full-stack developer (Middle+/ Senior)

We, **Interexy**, specialize in mobile application and web services development for both tech startups and established enterprises across the US and Western Europe. Our projects are not tied to one area, so there is an opportunity to work with cool products in Fintech, Health, Social Media, and Blockchain.

Our team is actively growing and now we are looking for a **Full-stack Developer** to help us develop our team. We are introducing you as a full-stack engineer with at least **4+ years** of experience with a good level of English, able to take responsibility, and be an expert in programming.

Is this about you? Then let's get acquainted!

Requirements:

- Experience with JS, TypeScript, **React**, and/or NextJS;
- Experience with **Node.js**, Express;
- Extensive knowledge of HTML and CSS;
- Understanding of Rest API principles;
- Good knowledge of OOP;
- Object-oriented code on the SOLID principle;
- English level – B2;
- Ethers.JS, Postgres, Redis- MUST;
- Nest JS, , AWS (KMS, Encryption Module - already implemented, deploy - EC2), Unit tests, , Sequelize (in the future they are planning to move to TypeORM), Docker (local deploy, postgres, redis images and api) - MUST;
- Knowledge of usability standards, including for mobile platforms.

Responsibilities:

- Development and support of mobile applications from scratch;
- Creation of high-quality, easily maintained code;
- Communication with clients in English;
- Support and refinement of existing projects.

What we offer:

From the 1st working day:

- 12th month pay policy;
- online/offline literature compensation;
- B-day gifts;
- corporate events;

- cash benefits for significant events in life.

After passing the probation period (+ benefits from the 1st working day):

- medical insurance (including dental services);
- 25 vacation days;
- 3 days off;
- corporate English;
- compensation of educational courses online/offline;
- sports compensation;
- corporate gifts.
