

### Light Kingdom

Pro Tip: Level up your food souls to 10 and 2 stars to unlock “Breakthrough” skills, then use their respective skills to make up for your dish stats. You can add up to 55 points in the relevant area based on what Soul you choose (e.g. Sake adds 55 points to Aroma for all dishes!). Also, “appearance requirements” go up as you move up the stages, so use a soul to make up for the deficit (e.g. Taiyaki, Macaron) even if your target dish stats are high enough!
