

Minnesota Council
of Teachers of Mathematics

December 6, 2025

Dear Prospective MCTM Presenter,

The Minnesota Council of Teachers of Mathematics (MCTM) is excited to announce that the Annual Spring Conference will take place in Duluth, Minnesota, on Friday and Saturday, April 24-25, 2026, at the Duluth Entertainment and Convention Center (DECC).

We are currently accepting proposals for this year's conference. You have presented at a previous Spring Conference or have been recommended as a speaker. We hope you will [submit a proposal](#) to speak at this year's conference and help us to offer an awesome selection of sessions to our membership.

The conference is built on the best and brightest work of our members, and your contribution will help support math educators across the state. If you know of others in your school building, district, or other place of education doing interesting work, invite them to submit a proposal as well.

The conference theme is ***ALIGNING STANDARDS IN CONTEXT, CULTURE, AND COMMUNITY*** with the following strands:

Equity & Access - Data Analysis & Probability - Instructional Practice - 2022 Standards Implementation
Benchmark Contexts: *MN Tribal Nations, Financial Literacy, Computer Science, Modeling, Real World*

If your idea does not seem to fit into any of the above categories, still submit your proposal. We are interested in sessions that will support teaching math in a way that students learn mathematics with understanding and develop strong mathematical reasoning. We get suggestions from conference attendees each year, so if you want to look at some of these ideas for inspiration, they are stored here. [Notice there are three tabs, ideas for future sessions from 2025, 2024 and 2023.](#) If you would like help writing a great session description, [please check out this information](#).

To enter for a chance to win complimentary conference registration, please submit your proposal by Saturday, December 6, 2025. Here is where you [Submit a proposal](#). **The final submission deadline is Friday, January 2, 2026.** The Spring Conference Committee will inform you of your proposal's status by the end of January, 2026.

If you are not interested in presenting this year, we would still love to see you in Duluth! Consider joining us as a conference attendee to reunite with your math colleagues in Minnesota. You can find the registration at this [LINK 2026 Spring Conference](#).

Sincerely,

Lisa Conzemius, MCTM Spring Conference Program Chair
Sandra Ketterling, MCTM VP High School
Sarah Moffett, MCTM VP Elementary School
Jillian Tomsche, MCTM VP Middle School
