

SL: get your dog back on his paws

Your dog doesn't enjoy walking anymore...

Fetch seems more of a burden than a fun activity.

He's feeling stiff, slow, and heavy.

His joints are starting to collapse under the pressure of his own weight.

The sad truth is...

The lack of essential vitamins and macronutrients made him
The prisoner of his own body.

There's still a way to revitalize your furry friend,
[**Click here and free your dog from its invisible cage.**](#)
