SMC Community Paper

This document is written by Sir Mapy and serves as a comprehensive guide for prospective members looking to join SMC DAO.

It provides clarity on everything you need to know about our community.

Welcome to SMC DAO

SMC DAO is a community of Believers created by Sir Mapy for the purpose of creating value for everyone in the digital economy.

Value, in this context, refers to meaningful ventures that enhance both financial and spiritual well-being while the **digital economy** is a combination of all online platforms that enables economic activities where innovations like cryptocurrency and blockchain play a central role in shaping value and wealth creation.

SMC is an abbreviation that stands for Sir Mapy & Co. while **DAO** stands for Decentralized Autonomous Organization which is the governance structure after which the community is modelled.

Every member who is accepted into our community is called a Believer.

To become a Believer, you have to first sign up to smcdao.com or download the SMC DAO app from the play store or app store and register as a member.

Upon registration, you will be taken to a dashboard where you will be required to take an entry quiz test to be part of the community.

The quiz will cover fundamental aspects of what it means to be a Believer, including topics on faith, stewardship and integrity in the marketplace.

The quiz contains 10 Questions designed to test your alignment with the values that guide our community, as well as ensuring that you fit within the cultural and moral framework that defines us.

You are expected to score at least 7/10 or 70%.

Passing this quiz will now be mandatory for all who seek to join SMC DAO. However, if your performance is below our expectations, your application will be rejected.

Benefits of Joining SMC DAO

When you join SMC DAO, you gain access to a unique and thriving community of builders and investors who share a common belief in both financial growth and spiritual values.

As a member, you will experience:

1. **Faith-Aligned Investment Opportunities**: Connect with a network of like-minded investors who integrate their faith and values into their financial decisions, offering guidance and opportunities that reflect both financial success and spiritual integrity.

2. **Exclusive Educational Resources**: Access tutorials, webinars, and content on financial literacy, crypto, and blockchain technologies from a faith-based perspective.

   Learn how to navigate the digital economy while staying grounded in your spiritual beliefs.

3. **Innovative Projects and Investments**: Be a part of our community-driven projects such as Wiki Cat, Defi Tiger, Peniwallet and many more.

   Hear directly from the Builders of cutting-edge crypto ventures and blockchain initiatives with the opportunity to invest in projects that align with both your financial goals and spiritual mission.

4. **Accountability and Support**: Pursuing after wealth can be harmful to your soul if not done properly.

   Build relationships with fellow Believers who offer accountability, mentorship, and prayer support, helping you remain faithful to your values while pursuing success in the marketplace.

5. **Unique Rewards and Recognition**: Earn badges, points, and recognition for your contributions to our community.

   We value every Believer and as a community, we are always seeking ways to reward and acknowledge the value and effort every Believer puts into SMC DAO.

In conclusion, joining SMC DAO means aligning your financial journey with your faith while also gaining access to a powerful network of Believers playing an active role in creating value for everyone in the digital economy.

Membership Status

Membership status in SMC DAO are categorised as follows:

1. **Approved Members**:

   These are members who have signed up to our platform, taken the entry quiz test and have successfully gotten approval to participate in SMC DAO activities.

   Approval Members have full access to the platform's features and can engage in community tasks, quizzes, and other events.

2. **Pending/Incomplete Members**:

   These individuals have applied for membership but are awaiting approval. Their applications are under review to ascertain if they have taken the quiz and filled in their correct details. They cannot access the full features of the platform until a moderator reviews and accepts their application.

   Usually pending status takes 2 days to a week depending on the volume of applications moderators are reviewing.

3. **Rejected Members**:

   These are applicants who have been denied membership in SMC DAO.

   Rejection may occur for various reasons, such as a poor performance on our quiz may result in application rejection, not adding a place of worship as well as providing incomplete or wrong information.

4. **Suspended Members**:

   Members in this category have had their membership temporarily revoked due to violations of community guidelines or other issues.

   They are unable to participate in community activities until their suspension is lifted. Duration of suspension usually starts from 7 days to a year depending on the offence.

5. **Deleted Members**:

   This category includes members who have been permanently removed from the platform. This could be due to severe breaches of rules or a voluntary request to delete their account.

Each of the above is crafted to help you understand the status of your membership as we ensure that our community remains secure and engaging for all Believers.

SMC Points

SMC DAO Points are reward points designed to acknowledge and encourage the valuable contributions of Believers to the community.

Believers can earn these points through various contributions. Points can also be sent to and received from other Believers.

These points are visible upon logging into your community App or profile.

How to Earn SMC Points

You can earn SMC DAO Points in through the following activities:

1. **Referrals:** By inviting potential Believers to join the community using your referral link, which is available on your profile page.

   Every successful invite earns you 2 points.

2. **Promotions:** By promoting our community projects on social media either through retweeting or reposting contents from our project's social media accounts or creating original contents about us.

3. **Creating Content:**
   Members can earn points by creating and uploading to our library various forms of contents, such as tutorial videos, research articles, quizzes, PDF books, and courses.

4. **Birthday Celebrations:** SMC awards points to Believers on their birthdays as a celebration of turning a year older. These Birthday Points are automatically awarded based on the birth date updated in your SMC Profile.

   Ensure your birthdate is accurate in your profile. Points are awarded daily at 10:00 UTC +1.

Total Points

This is the total number of points that has been given out to every Believer in the community.

So far, the DAO has given out 368,237 SMC Points, bringing the liabilities to $368,237 as we intend to keep the points $1 to 1 SMC Point.

SMC Badges:

SMC DAO Badges are digital awards that recognize the achievements, skills, or contributions of Believers within the community.

These Badges are visible upon logging into your community profile.

Types of SMC Badges:

1. **Automatic Badges:** These types of badges are automatically awarded based on predefined benchmarks, such as watch time, read time, chat count, comment count, and referral count.

   Some Examples include the "Silver Referral Badge" and "Community Ambassador Badge."

2. **Moderator Badges:** These types of badges are manually awarded by moderators for unique contributions like leadership, creativity, and mentorship.

   Some Examples include the "Emerging Leader" and "OG Member" badges.

3. **Legacy Badges:** These are special types of badges awarded by Sir Mapy. They honour historical contributions or milestones to our community.

   Examples include the "Lbankers," "Certik Heroes," and "70 for 700" badges.

Examples of SMC Badges:

1. **Believers Badges:**
   This badge is given after taking our entry quiz on signing up to our community. By passing the quiz, it signifies your belief in our values and this is our way of expressing our appreciation and welcoming you to the community.

2. **Bronze Referral badges:**
   This badge is awarded to Believers who successfully refer more than 5 new members to the community. It recognizes your contribution in expanding our community, and we are grateful for your role in helping us grow.

Badges are valued based on rarity and categorised from "Very Common" to "Extremely Rare" depending on the difficulty of tasks required.

By clicking on a Badge, you can see more information about the badge including all the recipients of that particular badge.

Activities:

Within our community app, various activities are tracked and displayed under the Activities section. These activities are categorised as follows

1. Approvals

When a user signs up to join the community, a moderator can either approve or reject their application depending on how well they answer their entry test. This activity is recorded as "@Moderator" Approved "@User" with "Reason for Approval"

2. Referrals

Members can earn points by referring others to the community. This activity is recorded as @Referrer" earned 2 points for referring @Referree".

3. Badges

When Badges are awarded, this activity is recorded as "@recipient received 'badge type' from @mapy". Keep in mind, @mapy is the community AI Bot.

4. Admin Roles

Admin roles within the community are managed by assigning or removing admin or moderator positions.

This activity is recorded as "@Admin made @User an admin". Conversely, admin roles can be revoked, as seen when @Admin removed @User admin and moderator roles.

5. Personal Activities

These include any of the above community activities that are specific to your profile. For instance, if you referred someone to sign up, were awarded a badge, or were made an admin.

Tracking and displaying these activities to the entire community helps to foster transparency and engagement, thus enhancing the community experience.

Rankings

Rankings serve as a way for Believers to compare their productive output to one another.

This is done to provide motivation for Believers to improve and strive for higher rankings as we work towards our shared vision of creating value for the digital economy.

Additionally, it is intended to help the community identify top performers in various and potentially recognize them for their contributions thus fostering a sense of accomplishment and encouraging ongoing participation within a community.

Currently our rankings is made up of
1. Points earned
2. Intelligence Score
3. Badges earned.
4. Creators
5. Referrals

1. Points earned

Points Earned measures and displays the total points accumulated by Believers. It ranks Believers based on their total number of points accumulated. This offers a transparent way to see who has the most points within the community.

2. Intelligence Score

Intelligence Score measures the cumulative performance of a Believer on all quizzes taken within SMC DAO. It represents the total number of correct answers relative to the total number of questions attempted.

Additionally, the average time per question is included in the Intelligence Score, showing how long, on average, each Believer takes to answer a quiz.

This score is also displayed on every Believer's profile. By clicking on a Believer's Intelligence Score, you can view the various quizzes they have taken and their individual performance on each one. You can also see all the answers they selected, highlighting both correct and incorrect responses.

3. Badges earned

The Badges Earned displays and ranks Believers based on the total number of badges they have earned.

It recognizes member achievements, encourages participation, and provides a visual representation of each Believer's accomplishments.

Believers can track their progress and compare their badges with others, fostering a competitive and engaging community environment.

4. Creators

Creators display and rank Believers based on the number of content assets they have contributed to the SMC Library.

This includes content such as articles, audios, videos, pictures, courses and quizzes.

Recognizing these contributions not only encourages content creation but also enhances the value offered to the community by increasing the quality and quantity of resources available to everyone.

5. Referrals

Referrals displays and ranks Believers based on how many new members they have referred to the community.

This fosters growth and helps spread the word about the SMC DAO. Referrals are a vital way to expand the community and ensure that more people can take part in and contribute to the ecosystem.

How Referrals work?

To refer a new member to our community, follow these simple steps:

- Log in to your account at smcdao.com.
- Click on your profile to find your personal referral link.
- Share your referral link with potential new members.

Once your referral has been approved by SMC Admins to join our community, you earn a referral point.

Referral Rewards

For each approved referral, members are currently rewarded with 2 SMC points, in addition a certain amount of referrals earn specific badge rewards.

- 5 referrals earns you a Bronze Badge.
- 25 referrals earns you a Silver Badge.
- 100 referrals earns you a Gold referral Badge.
- 500 referrals earns you a Diamond Badge.
- 1,000 referrals earns you a Platinum Badge.
- 25,000 referrals earns you a Community Ambassador Badge.
- 100,000 referrals earns you an Evangelist Badge. Best regards

Chats

Conversations are vital for community building, especially in a community like ours. The Chat feature enhances the community experience by providing a straightforward and intuitive way for members to connect and communicate.

Believers can engage in private chats for one-on-one interactions or participate in group chats for public discussions and collaborative learning.

Our Chat feature within the community app promotes active engagement and fosters a sense of belonging and connectivity within the community, making it easier for members to share knowledge, support each other, and grow together.

The chat functionality includes the ability to:

- Search for a Believer
- See when they are online
- Initiate a conversation
- Send pictures, videos, audio, text, points, and emojis

Functionality for private audio and video calls as well as group audio and video calls is planned for our next release.

Currently, only SMC Moderators can create group chats to maintain quality control. If you need to create a group chat for our community, please contact one of our moderators for assistance.

Mapy AI Bot

The Chat section also includes a state-of-the-art AI chat bot, Mapy Bot, pinned to the top of your chat and designed to enhance the community experience further.

Mapy Bot is always ready to interact with Believers, providing educational resources and real-time assistance.

Whether you have a question about navigating the app, need help with a specific feature, or want to learn more about the digital economy, Mapy AI Bot is your friendly, knowledgeable companion.

Library

The SMC Library is a comprehensive resource hub within our App designed to support the educational needs of our community.

The library offers a diverse range of content types, ensuring that Believers have access to valuable information and diverse learning experiences.

Here are the key features and sections of the SMC Library:

Content Types:

Videos

Engaging video tutorials and informational content to guide you through various subjects and skills.

Articles

A curated collection of written content, covering diverse topics to keep you informed and updated.

Audios

A wide selection of audio materials including AMAs, podcasts, and insightful discussions on relevant issues.

Courses

Structured learning pathways focused on specific topics, helping you develop expertise in key areas.

Books

Digital books in PDF format, offering in-depth knowledge on various subjects for you to explore at your own pace.

Gallery

A vibrant collection of visual content such as images, videos, and infographics to support and enrich learning experiences.

Quizzes

Interactive quizzes designed to test your knowledge, reinforce what you've learned, and keep the learning process fun and engaging.

This variety of content ensures that members of the SMC community have access to a well-rounded learning experience that caters to different learning styles. For the sake of quality checks, only Moderators can upload and modify content in our library.

SMC Mega Wallet

This is a dedicated community wallet where community funds are kept. This Wallet contains carefully selected and well-researched tokens, identified for their investment potential. The wallet address is **0xe8D88301c27100b2D5c8d6adcCFb36C5F3b45Be8**

12	The Word Token	TWD	BNB	0xf00cD9366A13e725AB6764EE6FC8Bd21dA22786e

Our Projects

As a community, we actively encourage and support Believers in developing projects within SMC DAO, ensuring benefits for early participants and fostering shared prosperity among all Believers.

Below are some projects that have been created within our community.

Wiki Cat

Wiki Cat is a memecoin built on the BNB Chain by Sir Mapy for SMC DAO to educate the community on understanding and adopting cryptocurrencies.

Launched on March 20, 2022, Wiki Cat has established itself as a community-driven token.

With a max supply of 1,000 trillion tokens, the project has a burn mechanism that constantly reduces the circulating supply, making the token scarcer and more valuable over time.

Link to the community here:- https://linktr.ee/wikicatcoin

Defi Tiger

DeFi Tiger Token (DTG) is a fully deflationary and decentralized asset built on the BNB Chain network. It serves as a powerful tool to raise global awareness about the declining tiger population and promote the adoption of decentralized financial options.

By intertwining conservation and finance, DeFi Tiger Token seeks to create an asset that represents DeFi adoption and acts as a rallying point for feline conservation efforts.

In its commitment to feline conservation, three percent (3%) of every transaction is automatically allocated to various tiger preserves worldwide.

Link to the community here:- https://linktr.ee/defitigertoken

Peniwallet

Peniwallet is our decentralized, non-custodial user-friendly cryptocurrency wallet designed to make managing digital assets effortless.

Offering gas-less transactions, it allows users to send, swap and spray crypto without the need for gas tokens making it smooth and easy for transfers.

Peniwallet stands out with its unique spray feature, enabling users to send crypto to over 100,000 addresses simultaneously, perfect for large-scale airdrops and social giveaways.

Our Partnerships

- Partnered and Exhibited SMC DAO and its projects at the 2023 Lagos Tech Fest at Landmark Event Centre, Oniru, Victoria Island. Video event [here](#)

- Represented our community at NFT NG where we competed in the defi Summer Tournament. Video event [here](#)

- We have so far registered 19,900 Believers in our community platform giving them access to high quality educational resources for free as instructed by God.

- We also have over 50,000 aggregate members across all our social platforms

- 70,000 people now have both [Wiki Cat](#) and [Defi Tiger](#) in their wallets most of which are Believers who are now firmly positioned for wealth transfer.

- Featured in [Coinmarketcap Q1 Market report](#) as the top traded token in Africa.

- We have Successfully listed Wiki Cat and Defi Tiger on Pancakeswap, [CoinTiger](#), P2P2B, [Latoken](#), [SuperEx](#), [Hotbit](#), [Digifinex](#), [Lbank](#), all of which are internationally recognized cryptocurrency exchanges/marketplaces across the world.

- Wiki Cat took a major step forward by winning the Gate.io battle for listing along with 20 other projects including Oggy Inu and ensuring easier access to a broader audience.

  This victory positioned $WKC for more visibility and trading opportunities!

- Achieved an all time high market value of $22 Million Dollars making many Believers who came circa 2022 millionaires.

- Achieved over 100,000 votes for Certik Audit free audit. Certik is the top audit firm in the world. See our profile here: https://skynet.certik.com/projects/wiki-cat

About the Founder

Sir Mapy is a dynamic and visionary figure in the cryptocurrency space, renowned for his keen insight into market trends and his successful ventures in digital assets which has helped him amass a large following of 50,000 across all digital platforms.

His journey began with a call from God to invest in [Shiba Inu](#), leading to over $498,000 profit from a [$500 investment](#) and then followed up with the [creation of Wiki Cat](#), a tutorial meme coin aimed at educating Believers about cryptocurrency and blockchain technology.

His commitment to educating Believers has also helped him to successfully create a community of 19,000 registered Believers called SMC DAO.

With this community, he has been able to create several high quality tutorial videos and research articles teaching Believers in the area of cryptocurrency and blockchain technology.

Sir Mapy's winning strategy blends spiritual guidance with astute market analysis, setting him apart as a pioneer for what God wants to do in the cryptocurrency space.
