

Tea Urn – Electrical Safety Notice (During Temporary Heating)

- **During the temporary heating period, electrical circuits are under increased load.**
- The tea urn is a **high-load appliance** and can overload circuits.
- **Do NOT use the sockets by the kitchen hatch for the urn.**
- **Use ONLY the sockets on the opposite side of the kitchen (by the external wall).**
- Do **not** use extension leads or multi-plug adaptors.
- Do **not** move the urn to any other socket.
- **Switch off and unplug after use.**
- Report any tripping, overheating, or electrical faults immediately.

Thank you for your cooperation.
