Why can't I talk in chat?!

Because of the overwhelming amount of awesome people in chat we can't have too much spam flying past or it renders the chat useless. Unfortunately this means we've had to implement slow mode. This means you can only talk once every 900 seconds.

If, however, you've been banned do not message the mods or the channel owner. Bans are final and are at the discretion of the staff to hand out.

Is Etho streaming?

No. He may be around in stream chat occasionally during the event.

How can I join the server?

The server is whitelisted. To get added donate \$20 over at www.mindcracklp.com.

NOTE: If you want to get whitelisted on the server, ONLY put your Minecraft IGN in the comment box, NOTHING ELSE.

If you donated and you are having trouble the support e-mail is mindcrackmarathon@gmail.com

The server is only available for the duration of the event. Map downloads may be available after the event.

I can't connect to the server! Help!

If you get the error: "Can't resolve hostname." Then try restarting your client and clearing your DNS cache. For other errors try restarting client. Please only email as a last resort.

What's the IP?

mindcrack.mcprohosting.com - The server is whitelisted. Access can be gained through donating.

Is Etho streaming?

Still no. Seriously.

I have another question!

If you're question hasn't been answered, check the /r/mindcrack post for full details and if still unsure ask one of the mods at www.twitch.tv/mindcracknetwork.
