Before commissioning me, please read my Commission Info and ToS. It saves me from having to explain things that are already explained. If you cannot find an answer to your question in either my Commission Info or ToS, then please ask me.

I ask that the commissioner get a general idea of how much their commission is going to be by reading my Commission Info. All prices are laid out. I dislike having someone ask me for a commission only for me to tell them the price and them balking and saying they can't afford it. If you can't find something you want with a price, please ask.
