How does the Smart Access Gate work?

A brief summary of how it works is set out below. For more detail click [here](#).

Booking - You will receive a four-digit PIN code via email each time you make a booking. The PIN code is the same for every booking. The PIN will work for a short period before and after the booking and for the entire duration of the booking, meaning that even if you are late, you can still get on court.

Exit from the court does not require any PIN code, simply turn the handle to exit. The exit handle is a mechanical device and will work if the computer system or power supply fails.

Floodlights - If floodlights are required for the time you book you will pay online for the floodlights when you book, the cost is £2.00 for every half hour for members and £2.50 for non-members. The system will automatically turn on and off the floodlights for your booking.

Note - the lights will switch on whenever the light sensor detects lighting is required, even if you have not paid for lights.

Gate closing mechanism - Our Smart Access Gate has a self-closing mechanism; **the gate must not be kept open as this will damage the mechanism.**

If you need help with the Smart Access Gate, please contact Eamonn Canavan on 07771 765709
