

Junior Full-stack Developer

We, Interexy, specialize in mobile application development for tech startups and established enterprises in the US and Western Europe. Our projects are not tied to one area, so there is an opportunity to work with cool products in Fintech, Game, Health, Social Media, etc.

Our team is actively growing and now we are looking for a **Full-stack Developer** to help us develop our team. We are introducing you as a full-stack engineer with at least **1 year** of experience with a good level of English and great desire to develop. *Is this about you? Then let's get acquainted!*

Requirements:

- Basic understanding of NoSQL , SQL databases;
- Familiarity and experience with MERN stack (Mongo, Express, React, NodeJS);
- The knowledge of css preprocessors and boilerplate libraries (SCSS, one of the following - Bootstrap 5, Tailwind, Material UI);
- Typescript knowledge as a huge plus;
- English B1+.

Responsibilities:

- Creation of high-quality, easily maintained code;
- Communication with clients in English;
- Support and refinement of existing projects.

What we offer:

From the 1st working day:

- 12th month pay policy;
- online/offline literature compensation;
- B-day gifts;
- corporate events;
- cash benefits for significant events in life.

After passing the probation period (+ benefits from the 1st working day):

- medical insurance (including dental services);
- 25 vacation days;
- 3 days off;
- corporate English;
- compensation of educational courses online/offline;
- sports compensation;
- corporate gifts.
