

\$100k Income Hack

Millionaire Lady reveals how you could have turned *\$500 into \$100k in less than a year using this “Secret Hack”.*

It has happened for thousands of people, it can happen for you.

If you can Copy this simple “Secret \$100k Income Hack”

Let me show you how this “Secret hack” works!

A real life example of how you could turn \$500 into a Six Figure Income in 2023!

Just copy this Simple Hack! And watch your income grow to Six Figures and beyond!

Too good to be true? It's not!

To do this, you DON'T need to be a Harvard graduate!

You DO NOT need a lot of money (you can even do it with less than \$500)

But you DO need to know how to make this "Secret Hack" work for you.

This is where I can help!

But if you are not open to learning something new then feel free to click away from this page!

Still here? Awesome!

I'll show you how it works....

Very few people know about this Income Secret!

Don't worry if you've never had a five figure month!

It's not the easiest but I promise you it is Simple and it is guaranteed to work!

If making six figures was easy, everyone would be doing it and then the money would lose its buying power! There would be hyper inflation!

The Six Figure lifestyle would then come for 7 or 8 figures.

If you want something which is easy but involves great risk then this is not for you!

But if you are willing to do a little bit of work in return of guaranteed success, then this is for you...

This isn't about investing into crypto and getting lucky!

This secret hack isn't about what might work for one in a thousand people!

This is about a skill.

A skill which if you acquire, you'll be set for life!

Warren Buffet has called this skill the most valuable skill in the world.

Which skill am I talking about?

You need to learn something called "Sales"

Why Sales?

There are thousands of courses out there teaching different skills that you can learn.

What makes sales special is that no other skill out there can help you generate income until you learn how to SELL it!

Sales is the only skill which can make you money, even if you don't have any other skill!

It is perhaps the most profitable skill ever.

Learning Sales is the best way to get rich... let me give you some proof...

Proven to outperform Ivy-League Degrees

Physicians are the highest paid salaried employees in the US making somewhere around \$187,876 a year.

For which they must complete a four-year undergraduate program, along with four years in medical school and three to seven years in a residency program to learn the specialty they chose to pursue.

In other words, it takes between 10 to 14 years to become a fully licensed doctor.

The average debt just after 3 years of residency, not including any specialities, is \$289,546.

This is not even considering any interest that you paid on your loans! Or living costs if you study outside the state!

After all this even if you start making a six figure salary, that's still a hell of a lot of money to pay off!

On average it takes 10-12 years to pay off the total debt after residency!

10-12 years in debt!

Imagine living under constant stress for more than a decade!

What kind of an effect would it have on your mental or even physical health?

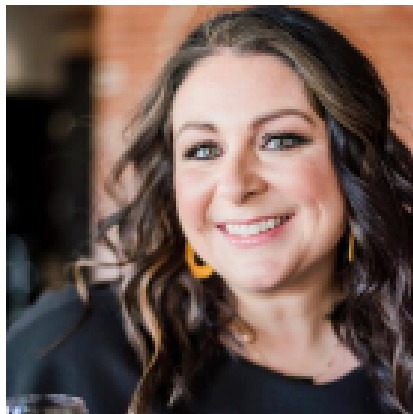

What effect would it have on your loved ones or family?

Not good!

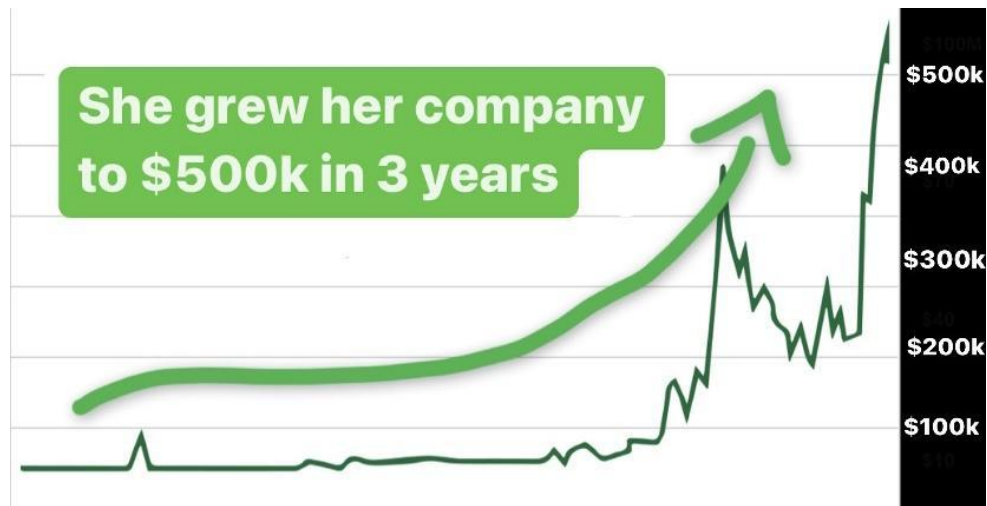

There have been many studies to prove the ill effects of constant stress and how fast it has been making human beings age.

Is this really the life you dreamt of as a kid?

Don't know about you but my student Stacy whom I have been mentoring for several years now, used my **Secret \$100k Income Hack** to drive \$45,000 in sales the first month.

She even grew her personal brand to \$500k in revenue in just 3 years, starting off with less than \$500! That's more than 1000X ROI

Compare it to what it takes to become an MD, it is not even close!

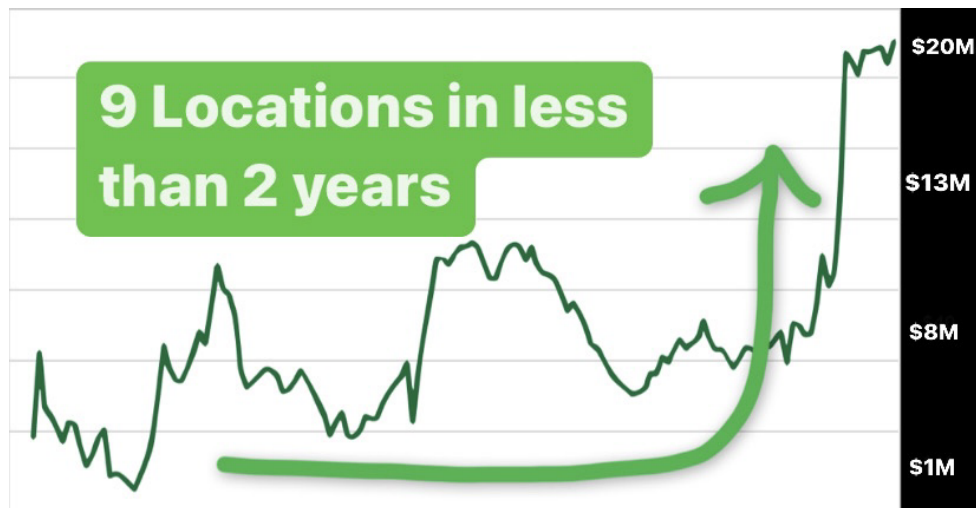

Now I totally respect Doctors and they deserve every penny they make, if not even more! But if just making six figures is your goal and you wanna get there fast!

Why not take the more efficient route?

My client Becky was barely selling anything when she was starting her Franchise...

Then she set the *Secret \$100k Income Hack* to work and her franchise grew to over 9 locations in less than 2 years!

Yet you will never hear anyone else talk about this *Secret \$100k Income Hack*

You wouldn't see a comparison between this *Secret Hack* and Ivy League Education anywhere else but here.

That's because Mainstream Media doesn't want you to see it!

Why isn't everyone using this Secret \$100k Income Hack?

If this Secret \$100k Income Hack works so good then why isn't everyone doing it?

You'd expect more and more people to use this technique and get rich.

Especially when it can turn your \$500 into \$100k in less than a year!

You see, an advertiser only advertises what makes profit for them.

Whether it makes profit for you or not, it should make profit for the advertiser.

Now if they tell you about this *Secret \$100k Income Hack* which can turn your \$500 into \$100k in less than a year, what do they gain from it? Nothing.

But if they can convince you to Go study at a university and pay hundreds of thousands of dollars for years if not decades.

How profitable does it get for them?

It's incomparable.

Who benefits from you knowing about the *Secret \$100k Income Hack*?

Nobody! But you.

This is why no one wastes their time and money talking about it on the mainstream media like they talk about their university programs which promise you the world but then only upsell you to bigger and bigger programs, burying you deeper and deeper in debt with each passing year!

But just because this Secret isn't talked about in the media, doesn't mean there's anything wrong with it.

In fact, I prefer it to be this way because as I said, if everyone starts making Six Figures in less than a year, it will make money lose its buying power!

Moreover, it will cause the Biggest Institutions in the world to get shut down!

So let's just keep this *Secret Hack* to ourselves.

Now you might be wondering how this *Secret Hack* works? and How can you use the skill of Sales to generate \$100k in less than a year with just \$500.

Let me show you.

Real Life Example of How the Secret \$100k Income Hack can make you over \$100k in less than a year with as little as \$500

What you will read below is the fastest proven and the most solid way to get you to a Six Figure Income.

It is so effective that people have fast-forwarded their incomes by a couple decades just by using it for one year.

It has also saved people from hundreds of thousands dollars worth of debt.

It is a Brief Real Life Example of the Secret \$100k Income Hack at work!

This is how it goes.

Step 1: Get the right offer to sell at the right price.

My client and friend Amy knew that she needed to sell in order to generate the revenue she always wanted which was \$8-10k a month.

But she never really knew what to sell.

Most people think it is hard and that they can never come up with anything of value that people would buy.

But honestly creating her offer was one of the most fun things she ever did!

In my Secret \$100k Income Hack I taught her exactly how to do it and she came up with an outstanding offer worth \$3k ready for selling.

Step 2: Get appointments

She knew that in order to sell she needed to talk to her prospects but the path to those conversations was still unclear in her mind.

I have seen newbies struggle with getting appointments and get frustrated as nobody seems to be interested in getting on a call with them.

But that doesn't have to be the case!

After following my Simple Appointment Setting Structure, getting phone calls became super simple, she started getting 1-3 calls a day with highly interested leads.

Step 3: Start Selling

This was the part she was the most scared of (but secretly the most excited for) because this is where the money is made.

Studies suggest that nervousness and excitement are basically the same sensations in your body, it's just how you interpret these sensations.

Excitement is a positive interpretation to these sensations which is what you want to have.

A lot of people who come to me are scared of sales and are scared of sounding salesy or sleazy or pushy!

In my system, I never teach my students to be anything like that.

None of those behaviours work.

Nobody wants to be associated with them.

I teach my students how to sell in a way that is simple, enjoyable and actually feels really good for them.

Because you cannot be successful until you enjoy what you're doing.

Which is why only after a few weeks of training Amy had acquired enough skills to close 3-4 clients a month while loving the process!

Making her \$12k in her first month.

In 2022, she closed a total of 42 clients, making her \$126k in Annual Revenue!

Before this she worked as a school teacher only making \$34k annually, do you think she'll ever go back to that life now?

You're right, She never looked back on it!

This could have been you had you invested something as small as \$500 and listened to me as I broke down to you the Secret \$100k Income Hack!

Luckily, It is still possible to do it in 2023 and I will show you how you can start your own *Secret \$100k Income Hack* in a minute.

But before that let me ask you something.

Your Dream Life

What would you do with the \$100k you make this year?

Would you go all extravagant?

Drink Dom Perignon, buy Louis Vuittons, eat caviar, go on an exotic vacation? Be that girl in the Audi?

Or would you rather, Help out your family and friends in need? Donate to your favourite charity? Buy your mom her favourite pair of earrings?

Whatever you wish to do, Sales could help you get there.

That too a heck of a lot faster if you're ready to start your *Secret \$100k Income Hack* fast.

If you are ready to Live your life - Queen Style!

To put it straight, get everything that you ever wanted.

It's what you deserve. Right?

So isn't it high time that you take the first step?

Haven't you waited enough already? To get the life you always wanted.

Then let me tell you who I am and how I can help you launch your *Secret \$100k Income Hack* fast!

Sales Queen Collective!

By now you might be wondering who I am!

My name's Jillian Murphy, the creator of Sales Queen Collective, which in my experience has been the fastest and the most predictable way to reach your Six Figure Income.

Here's why.

Before Sales Queen Collective, I was in the Corporate Sales Space for 22 Years, I lost my job in the pandemic, having no freaking idea what I was going to do...

But knowing that I had a God given talent for sales, I quickly shifted to the online space.

I have not only been able to grow my own personal business from 0-\$500k in only 18 months with nothing more than a zoom link, a paper planner and a white board...

But I have taught hundreds and hundreds of others to scale their businesses and explode their sales.

SALES!

In the sea of mediocre Sales advice out there, which wouldn't get you anywhere...

It can be a gruelling task trying to find the right knowledge, moreover the only way you can know is by trying yourself!

But you don't have to, I have done the grunt work.

For 22 years I have managed and trained hundreds of Sales Teams. I have seen what works and what doesn't.

I have been there, done that.

I have taken all the blows, been through the failures and taken all the lessons. I did it the hard way.

So that you don't have to.

Trying to sell without learning from the right mentor and going from one failure to another can be brutal and mentally taxing.

But over time I have understood how to simplify this process and sell in a way that actually feels good while bringing in more and more consistent cash.

If you find yourself doing all the things on Social Media but it's not converting.

You feel like you have inconsistent cash months but you deserve more recurring revenue...

And you just wanna sell in a way that feels good without being salesy while also having fun on your journey of entrepreneurship.

Then Sales Queen Collective is for you.

What's included in Sales Queen Collective?

In order to make the best of whatever life throws our way we have to be fluid, like water!

If a prospect is interested to chat with you in the DMs and you see the possibility of selling in the DMs, you can't be pushy with them to get them on the call and push them away for good.

You have to make the sale whether it be on the call or in the DMs.

In BONUS # 2 I will teach you how to sell in the DMs effortlessly with messages and flows that are proven to work.

All you'll have to do is Type!

BONUS #3 : Stories that Sell (\$399)

From the beginning of time, when we didn't have Instagram, human beings have always communicated with Stories.

There is something about the human brain that it can't help but listen to a story, it immediately pays attention.

Instagram Stories are no different, the moment you post, you immediately see viewers paying attention to it.

Stories because they are so catchy are an amazing opportunity to sell and to spread your message!

BONUS #4 : Behind the Brand (\$299)

Ever wonder why people readily agree to give their money to some people while there are others who just can't seem to get the money in spite of doing everything right?

It's what happens Behind the Brand that matters.

People a lot of times don't buy the product but they buy who you are.

People don't pull out their credit cards if you are a nobody.

But if you are a Brand that has a certain reputation and authority, they are happy to comply.

All of that gets dictated by what happens Behind the Brand and that is exactly what you learn in BONUS # 4.

BONUS # 5 How to Generate Leads on Repeat (\$399)

Getting a good lead feels good but experienced business owners know that one good lead doesn't necessarily mean anything.

A business survives on leads, just the way an elephant survives on grass.

You need a lot of them!

You need more leads than you can handle because closing is a numbers game, at least in the beginning.

If you don't have a system that generates leads predictably for you on repeat then you are just inviting more and more stress and uncertainty in your business.

This is where BONUS # 5 comes to your rescue.

It takes the stress and anxiety out of your business by making sure your lead flow is in abundance.

BONUS #6 : 6 Steps to Close Your Next Sales Call (\$499)

You already learn A LOT about Closing from my Masterclass but I would still highly recommend you don't miss this section.

This is where I take you from someone who closes pretty damn well to someone for whom closing is like second nature.

This is where I make closing for you so automatic, simple and free flowing that you can close in your sleep.

This is the part where I add the "sing" in Closing because it feels so rhythmical and harmonious for you.

All you'll have to do is make these 6 steps a part of your system.

Which is what I'll do for you in BONUS # 6.

BONUS # 7 : Sleight Your Sales (\$575)

Over time you'll understand a lot of concepts that I touched in my masterclass that you might not realize in the beginning.

As you become more and more advanced at your craft and generate more and more revenue you'll become an expert in your field.

You'll be shouldering a lot more responsibilities and will have to build a team for your business.

You'll need to hire and train more sales persons to draw your sales sledge ahead.

You'll need to be in your Queen energy more and more, providing leadership to your team.

Which is what my BONUS # 7 will do for you.

You'll realize that as you grow it becomes less about how much you can do by yourself but actually how much you can get done with the help of others.

BONUS #8 : 6 Steps to 6-Figures (\$499)

Reaching 6 Figures doesn't have to be as hard as people have made it to be.

It has been put on the pedestal and made to seem like some sort of an unreachable, unattainable standard that almost nobody can get to.

Truth is that it can be really simple and pain free if you follow the simple steps laid down by an expert like myself.

I have made it as simple as possible, even your highschool self could do it if she followed these simple 6 steps to six figures.

BONUS # 8 will handle that for you.

AND MORE!

There is so much more in SALES QUEEN COLLECTIVE than I can ever share with you in this letter...

And with time it is only gonna grow bigger and bigger, it is like mother nature.

It is abundant, keeps growing and it is crucial for your growth.
