

Author One¹, Author Two², Author Three^{1,2}

¹Institutional Affiliation for Authors One and Three ²Institutional Affiliation for Authors Two and Three

Insert Title Here

With this template, abstracts can be prepared for inclusion in the Abstract Book of the International Conference on Music Analysis and Theory. The text of the abstract should not contain examples or figures, and should not exceed 300 words. Authors may simply replace the text in this template with their own while preserving the formatting.

The entire document is in Times New Roman font. The title has a size of 16pt and is bold and centred. Also centred are the authors' names (14pt) and, below, their affiliations (10pt). For each author, indicate the respective affiliation with a superscript. If two or more authors have the same affiliation, you may use the same superscript for each of them, as in the example; if all authors have the same affiliation, you may omit the superscripts altogether.

The body of the text is in 11pt size, with 1.5 line spacing. The beginning of each paragraph is indented by 0.5cm. Bibliographic references may be included in the text in brackets, e.g. [Baroni 1981, 243], [Cone 1982, 234], [Schenker 1926, xii], [Straus 2001, 53].
