

Videos for Seniors

<andrew.pfouts@bvsd.org>

NVHS Office phone #720.561.8700

This group will work with residents of Presbyterian Manor and make videos that record people's life stories. The videos could be for the residents to remember their lives, for the families and posterity or for the residents to get to know each other. Students will get to know, interview and film residents the first two days and create an edited video by Thursday.

Students will use the interviews, pictures and music to tell the story. Students will work in groups on these big projects but also may have a chance to do some smaller service oriented video projects.

You will get a daily grade based on attendance and participation. Grades are based on being where you should be and doing what you should do. Credit is adjusted according to attendance.
