English is one of the most popular languages in the world. It comes second in the number of speakers after Chinese. In Vietnam, more and more people are studying English and they consider it a key to success. However, not everyone knows how to learn English effectively.

The best way to improve the four skills: speaking, listening, reading, and writing is to practice regularly. You should make use of every opportunity to speak English with friends in class or at English speaking clubs or yourselves in front of the mirror. Learning by heart all the words does not help much if you do not read a lot because you will easily forget what you have learnt. Reading books, listening to the radio and watching films are better ways to memorize words. Besides, English learners should not be so shy because making mistakes is unavoidable in learning foreign languages. Practicing speaking a lot is a good way to

correct your mistakes. You can also join an English pronunciation class or practice speaking and listening to native- English speakers as much as possible. Watching TV programs in English is another good way of improving your pronunciation. Above all, the best way to improve your pronunciation is to learn English in an English speaking country where you can learn the language as well as its culture.
