SCOOBY-DOO [Matt Raichous] (0:10 - 0:30)

(Ruh Roh!) The top dog hoppin' onto the track!
Lappin' up Scooby Snacks, I'm solvin' mysteries fast
Chasing ghosts and ghouls and goblins til I leave 'em unmasked
While I'm ghoulishly gobblin' any food that I pass (Reah)
I'm the pooch that's pullin' bitches, makin' history
These bitches wanna be me, winnin' since the 60's
Don't need to split, I'm already sniffin' out the clues
Whatcha gonna do when you're caught by Scooby Dooby Doo

CLIFFORD [Red Rob] (0:30 - 0:50)

Now you steppin' to the big dog
Big stocks when you bettin' on the big boss
Stackin' up big logs and the big rocks
Lay the foundation for the big spots
#1 in both size and in nature
Apex predator that you see as a neighbor
A pup with the paper, previous pet turned a player.
Big steppin' in your town and I leave as a painter

BLUEY [FinalCometVA] (0:50 - 1:10)

"Bluey you need to rap!" Aw, do I have to?

I guess they don't expect to be connecting, like It's Bluetooth
If you gimme something new I'll take it but won't chew through
Making my own paths, but that's way worse to lose to
If you're grabbing a tuxedo, better make sure it suits you
If you think that looks matter, then you surely must be new
But we all do it together, and you that that's true
So if you come to our house, then you'll be anything but blue

SNOOPY [Leo Barqui] (1:10 - 1:30)

Here's Cool Joe, what's he gonna do next
Serve an ace on a platter or serve a pitch to the Mets
I'm wearing all of these hats, throw nothing if I ain't fetch
Money long like the ears, they tell me stick up the bread
Cause I'm... Esnupi! I chew beats, leave the bowl
Fly behind enemy lines, I'm cleaning home
Won't find it a Pigpen, Charlie Brown ain't sighted
With my dinner, then I'll howl outside his house all night, ha!

COURAGE [Sh!nki] (1:30 - 1:50)

I'm screaming Muriel Muriel
Ghost lurking can you see that
Creeping in the fog return the stone
Or they'll be back
Crashing out funny
I lock in I'm going dummy
I'm getting to to all the money
These rodents be getting scummy
I'm on the pc I promise I get the upper hand
Pull it back
Loading the clip it feels like a rubber band
It's a C to O-U-R-A-G-E
Big dawg Courage
You monsters cannot deceive me

GODDARD [Swizkii] (1:50 - 2:10)

The mechanical canine (bark bark)
With flammable straight rhymes (bark bark)
Though I'm robotic, the doggiest dog is me
I'm like a pocket knife, honestly I'm the G.
O.D.D.A.R.D. (self destruct) I'm blowing up
Rockets on my feet, yeah I'm only going up
Gathering data and information like a game of fetch
I mean saving the day is like a daily quest

GROMIT [The Stupendium] (2:10 - 2:30)

Who's the pooch of few words, chum so pedigree
They're the only pup to pack an engineering degree?
Send the Zoo a new bird – come stepping to me
Laika boss – space dog when I'm seeking my cheese
It's pretty plane to see why there's nothing above me
Leave foes like toast to a gun full of chutneys
Mess with my inventor and it's gonna to get ugly
And you'll see just the amount of bounce I got in my bungee

JAKE [ForgeFireRam] (2:30 - 2:50)

Mathematical
Ladies see the baddest dawg in ooo and go radical
Attention deficit I never said that I was tactical
Ice cream in a toaster, my lack of focus is never practical
This dog be magical
It's a stretch that I would say, that I be lacking in the brain
I'm just a different kind of hero, save the world in my own way
This party animal the dog in the fight, you best get outta my way
Coz Glob I'm hungry, everything burrito? nah, bacon pancakes

BRIAN [B-Lo] (2:50 - 3:10)

You should be lucky to have me, a Family Guy's best friend
Someone get me a martini, do I need to hump a leg?
Been hitching so many bitches, two decades, I been a playboy
Like a pirate how I'm getting all this booty (Whoa, ass ahoy!)
If I wish it and want it, I'm doing it despite the odds
They may try to kill me off but no Vinnie will take my spot
They may put this dog on a leash but nobody walking him
How many of these fucking rappers will say that they "got that dog in em?"

MARTHA [KenosIsHot] (3:10 - 3:30)

when I hit em with that woof woof
nobody know what they In For when they be clicking on My Show
it could be anything inside reality since I be talking
that meaning that there could be Way More now cause that I Know
how to express all the thoughts in my brain or communicate, even exaggerate
gasping and HYPERVENTILATE!
Pneumonoultramicroscopicsilicovolcanoconiosis
before I blackout again with a pad and a pen, I'm leaving the track smoking
everybody gonna take an L when I come up with the W and then I'll go for a walk
anybody think about the way I be rapping lemme come and tell you it's 'cause I got big talk

KRYPTO [GreenBeanXP] (3:30 - 3:50)

Its every pet favorite hero
Is it a bird
it's a plane
no it's Krypto
Faster than a speeding bullet
Yeah you know I do it
Got these mother fuckers going stupid
You can tell ace I got the sweet moves
Let's lower down the fire and making rap cool
I'm about drive
I'm about power
I stay hungry
and I devour

RUFF RUFFMAN [ST33L] (3:50 - 4:10)

make way,
another game host has arrived
fetch me the Fetch 3000
and let's take it for a ride
every kid who comes to play
plays to learn, and win the prize
chuck them in a "bone-us"
and it's one doghouse of a time
every subject is wildcard
every moment is a pro
Go fetch! that's the motto
see the knowledge as a bone
"Blossom, check the stats",
and make sure the game's a go
I'm the best that's ever lived
that's ruff to the Ruffman
they ain't even close

PLUTO [J Cae] (4:10 - 4:30)

Bringin up Homer the mound like an old sound
Gotta take a couple steps back n put that pen down
Don't be talkin Chance cuz my journey ain't a Homeward Bound
I gotta show em the Pup that's reppin Toontown
Ain't got no canon voices I would leave em talkin Goofy
They barking up the wrong tree yeah I know they Tune so Looney
I gotta partner with me and he hold the Key that's Mickey
Ya tryna keep me in a minor role but I ain't Minnie

MR. PEABODY [Rytchiee] (4:30 - 4:50)

Salutations, my fellow connoisseurs, but
Those impeccable stanzas were standing, well, so demure.
Allow me to profess and confess the lesson for the viewer
Have your exquisite accoutrement and let the lesson commence clearer
Did you know that the first verbal quarrel can be traced back to the 70s
But back 4000 years ago, resurrected the 19th century's
A Lovely epic shpiel from Gilgamesh, and other poetries
Predating the Shakespeareance? But that's just elementary
Like school...it's complimentary, and cool
Education's mend your stations until your patience's a tool
you'll use in the off chance you're sedentary
or a fool, or when your social life's in shambles,
thus one can't handle the decline
of the cells betwixt the mind that one embellishes,
but you'll relish the emotions that you would idolize and romanticize just for the hell of it,
but look at this with me.
Being smart is where you're meant to be.
à la prochaine et bonne vie
