

Student Testimonials

"At the beginning of the course, our class had been really struggling with the material. We communicated this with Ben and they tried a few different options to help us. Rest of the semester went pretty smoothly."

"Instructor was very passionate about what he was teaching which made class more enjoyable. He always tried to explain things to the best to his ability and was very open to feedback and criticism. He brought in candy during Halloween for the class which I thought was very sweet. Overall, I think he did an amazing job of teaching this class."

I liked [Ben] a lot, a bit shy seeming at first and quieter but by the end of the year [his] passion really came out for the topic and was cracking jokes and that passion makes the topics much easier and interesting to learn."

"I really enjoyed the class. The professor was very good at talking about these issues, even if they were controversial. His feedback was always prompt and to the point as was his teaching style as well."

"Instructor was very adaptive to needs/issues of students and the class as a whole, very willing to provide meetings/answer questions. A very inclusive environment, it is clear the instructor is very passionate about the topics covered."

"This class felt very optimized for undergrads not in the major. And as an undergrad not in this major, I appreciated that."

"Ben is one of the best professors I've ever had. He's helpful and informative without being condescending and he's aware and appreciative of the entire class's range of knowledge levels. He grades with kindness and takes time to give us points for the process we took to get our answer, even if it is wrong."

“Ben was genuinely one of the best professors I’ve ever had. Extremely entertaining, witty, and considerate. His office hours were extremely helpful and I appreciated him offering extended hours. He showed dedication to teaching and his students. Wonderful teacher!”

“Very enthusiastic and fun person to talk to and discuss with. Really knows what the material is and how to interpret it in a way a non-econ student like me to understand what is going on.”

“You are the only professor since I’ve been in school that has listened to what students had to say and actually made a change and I can definitely tell a difference!”

“I liked how helpful he was in making economics easily understandable and he was able to make available time if you need one on one time.”

“He is very enthusiastic in class, and very helpful out of class.”
