

Mrs. Spiers' Websites and Online Resources

The following websites may be accessed at home. Many of these sites are great tools that will build on the curriculum we are working on at school. Others are great for boredom. :) Some websites require logins and passwords that will be provided. Everything below is provided to you for free. There are many other websites or apps you may find useful if you are willing to pay a fee. Ask me anytime. Every child learns in a different way, so find something that works for you and your child.

Wonders: This is our reading curriculum that we work on at school. There are games and videos but most importantly there are books. These are the books I would like them to be reading to you daily.

SplashLearn: This is a great math website. The kids love the games and activities and it allows me to see their progress and how they are doing.

<https://www.splashlearn.com/>

Starfall: This is another one that we use at school. It has fun math games under the kindergarten level. Try and find those that tie into what they are working on. There are also lots of reading materials and other good things to review. Please use this login to access all material: login is starfall@filerschools.org and password is Idaho.

ABCYA: This website is free and has all sorts of games that go along with our standards. This is a great one for restless days when they just need to have some playtime.

<https://www.abcya.com/grades/k>

Education.com: This is one they love to play as a class. There are great games for math and rhyming and letter sounds and much more.

<https://www.education.com/>

Youtube: There are so many videos you can access on youtube. Lots of books that can be read to your children. Lots of counting videos, shapes, letters, etc. The Letter Factory is a favorite song that your children will know well. The most utilized in our classroom are the sight word videos. Look up Jack Hartmann and the sight word you are working on with your child.

GoNoodle: There are some education videos here but this is primarily a great website for getting out some wiggles and energy. Ask them what their favorites are.

<https://app.gonoodle.com/>

Khan Academy Kids: This website has some great tools and games for them to practice nearly everything we are learning in class. I will give them assignments occasionally that should be done prior to other activities they want to complete.
