WaterTime partners:

[PSIRU, School of Computing and Maths, University of Greenwich, UK](#)

[ERL, Universidad Complutense de Madrid, Spain](#)

[Institute of Environmental Engineering and Biotechnology \(IEEB\), Tampere University of Technology, Finland](#)

[International Water Affairs, Hamburg, Germany](#)

[Nomisma, Bologna, Italy](#)

[Eötvös József College, Hungary](#)

Coordinator: PSIRU, CMS (M257), University of Greenwich, Park Row, London SE10 9LS, U.K.

**Watertime Final Conference, Friday 25 November, 12.00-7.30pm.
Room SL101, Stephen Lawrence Building, University of Greenwich, London, UK**

Watertime is an EC-funded research project which aims to improve the sustainability of decision-making on water systems in Europe's cities. The project is studying decision-making on water systems in 29 European cities, drawing on their long-term historical experience as well as recent decisions.

Watertime is producing a structured set of recommendations on good practice in decision-making, and developing a web-based set of tools, including a formal decision aid, to support participative and transparent decision-making. These will be available in a number of languages, and freely accessible.

Watertime has already published case study reports on 29 cities, a historical overview 'City in Time', an analytical framework, and reports on the national and international contexts of decision-making. These are all available at <http://www.watertime.net>

Research partners	Stakeholder steering committee
PSIRU, University of Greenwich, UK (coordinator) Universidad Complutense de Madrid (UCM), Spain Tampere University of Technology (TUT), Finland International Water Affairs (IWA), Hamburg, Germany Eötvös József College (EJC), Budapest, Hungary	Consumers International European Environmental Bureau Council of European Municipalities and Regions European Centre of Enterprises with Public Participation European Federation of Public Service Unions Consumers Protection Association of Romania EMACSA: municipal water utility, Cordoba, Spain

The final conference will bring together stakeholders and academics from across Europe and beyond. The results of the project will be presented by partners, discussed by representatives of the steering committee, and discussed by invited speakers, including: Anne Le Strat (president of Eaux de Paris), Renato Drusiani (FEDERUTILITY, Italy), Jack Moss (AquaFed - International Federation of Private Water Operators) Esteban Castro (Newcastle University, PRINWASS project), Jeremy Allouche (Lausanne University, EUROMARKET project), Vladimir Kuznyetsov (USRIEP, Ukraine), Christelle Pezon (ENGREF, France).

If you wish to attend please notify Olive Lee o.b.lee@gre.ac.uk and ask for information about hotels. There is no fee.

**Watertime Final Conference, Friday 25 November, 12.00-7.30pm.
Room SL101, Stephen Lawrence Building, University of Greenwich, London, UK**

Programme

1200-1225 Snack lunch

1225 Introduction and welcome

1230-1430 Watertime presentations and discussion

Overview and Good practice recommendations: David Hall, PSIRU, University of Greenwich:

Analytical framework: Andres Sanz, ERL, Universidad Complutense de Madrid

City in Time: Tapio Katko, IEEB, Tampere University of Technology, Finland

Case studies:

Klaus Lanz, IWA, Hamburg – 2 German cities

Judit Peter, Eotvos Josef College, Baja – 3 Hungarian cities

Emanuele Lobina, PSIRU, University of Greenwich – 4 Italian cities

Decision aid, model and website - Robin De La Motte, PSIRU, University of Greenwich

1430-1445 break

1445-1615 Stakeholder panel from watertime steering committee, with discussion

Emil Bojin, Consumers Protection Association of Romania

Jan Willem Goudriaan, European Federation of Public Service Unions (EPSU)

Bengt Hedenstrom, European Centre of Enterprises with Public Participation (CEEP)

Stefan Scheuer, European Environmental Bureau (EEB)

Robin Simpson, Consumers International (CI)

1615- 1630 break

1630-1845 Panel of practitioners and experts, with discussion

Renato Drusiani (Fergasacqua, Italy)

Anne Le Strat (president of Eaux de Paris)

Jack Moss (AquaFed - International Federation of Private Water Operators)

Jeremy Allouche (Lausanne University, EUROMARKET project)

Esteban Castro (Newcastle University, PRINWASS project)

Vladimir Kuznyetsov (USRIEP, Ukraine)

Christelle Pezon (Engref, France)
