## General Club Information

The official name for our club is: Livingston County RC Club. We are an AMA (Academy of Model Aeronautics) sanctioned club # 1591. We encourage all types of radio-controlled model aircraft.

General Membership meetings are held at the Marion Township Hall on the second Wednesday of the month at 7pm November – April. During the flying season we prefer to hold the meetings at the flying field, weather permitting.

Wednesdays and Sundays are considered “club days”, but flying is permitted all days. Members are provided with a gate code once their dues are paid. Because of obvious safety reasons we discourage members flying alone. Do this at your own risk!

Our dues structure is as follows:

Regular Family Membership annual dues (includes all immediate family members) is \$120 paid by the March General Membership meeting. This Family Membership requires all participants that fly to have a current AMA Membership affiliation as a Regular Adult, Junior, or Park Flyer. Family Memberships include our Training Program if needed.

New Members joining during the flying season prior to August 1<sup>st</sup> is \$120. After that date new joining members' dues have the option to pay \$60 for the remainder of that season plus \$120 for the upcoming year. Or pay \$80 for the remainder of the current year.

A mid-season assessment if necessary will be determined around the 1<sup>st</sup> of July based on the number of current regular members and will be due by the August meeting.
