

Happy Birthday Missy 💕

I'm writing this at 9:30 am, shortly before getting ready for my last Con Day. Payback for my birthday, you could say. Jokes aside, I hope today is filled with lots of things you love, despite it being a Monday. And Cake. Cake fixes everything. Did you know that I just recently realized that you also were a Leo? We've known each other for what, 10 years now? I'm not the fastest... anyway, I love you so very much talking to you is always such a joy and you're such a light in my life! Hope you enjoy the tamaharus and futakous I used for you this year, hehe 💕

Happy Birthday Missy love! <3

I hope your birthday this year is gonna be amazing and special (your irl friends did a good job with that already it seems :D) bc 30 is a special year for sure! So here we are to do our part in making sure it's gonna be memorable (maybe? Lol).

I love you so much, you're so much fun to be around, I love how you can take an idea and run with it and drag us all a long now matter how much dumb fun it is hehe. Being your partner in crime is the best thing. :) And on top of that we can have the best conversations about serious topics, and I really appreciate that so much. Thank you for being my friend through anything and everything, thank you for your enthusiasm, and thank you for being my inspiration for so many years now!

I'm super looking forward to hopefully finally meet up with you this year and for all the stuff you're gonna drag us into the coming years!

All of my love ~Lena

Ok all jokes aside of course I have things to say to you. First off: I love you dearly. You are such a sunshine and I loved following your trip through Europe. I am so glad you guys had a blast and the meetup between you and Dina was ADORABLE omfg. I cannot believe you turned 30 already. Where did the time go? Anyway I'm so proud of you and how far you've come in life already and idk I am just super happy for you. I hope you have a wonderful day and that you get another one of those amazing cakes because you deserve the world. I love youuuuu. Lots of love from me. 🥺💕

HAPPY BIRTHDAY MY DEAR MISSY!

It still feels unreal that we actually met up two weeks ago. On one hand it felt like hey ofc it's easy to talk to you, we've been friends for about a decade now! And on the other hand it felt like there was so much more we could still have talked away about, especially since we had such a short time together. But I'll never forget the flowers you gave me and how I almost cried before the waiter guy welcomed us into the restaurant (lol). And I will also always remember how dead the grass was at Hyde Park that day HAHA. Can't have it all, Missy, can't have it all. I'm super glad that you enjoyed your trip despite the lack of AC in some

places haha and I definitely have to go visit you one day in the US for my own tour! (Skype crew on discord but on the road in the US?!?) . Hope you have the most 100/10 birthday ever because you deserve it. Love you!
