

SL: Sell Garbage To Garbage Men

[name]

Most of us have seen the movie “The Wolf Of Wall Street”

(If you haven’t you should, it’s a great way to learn some secrets for business)

In the movie, Belfort says “I was selling garbage to garbage men and making cash”

Sounds crazy right?

How does that even work, how does it make money?

It’s quite simple, when he was doing his sales Belfort was very persuasive.

That’s what made him rich, the art of persuasion and tapping into people’s desires for a rich life of luxury.

Now, [name] imagine combining that power with your business, it can do wonders.

Email me back and let’s discuss how we can make something like that happen for you too.
