

Kind Messages From Kids

My group and I in 5/6 have been planning to make cards with nice messages and delivering them to people in our neighbourhood. My group includes Kristian, Leon, Tarun and myself, Ben. We started this project to bring joy to people in lockdown because they can't see their friends or family. We would love it if you gave people joy in these sad dangerous times too by joining in and writing letters to your own neighbours.

We started this project because the 5/6's have been trying to make the world a better place. We are making our Confirmation and we want to make God happy by making everyone else happy.

We will be delivering our messages of joy around our neighbourhoods. Please join us and help spread the joy with us.

You should check your letter box too, you never know we might have delivered you a letter.
