

Fordham College Lincoln Center

COMMITTEE ON HEALTH PROFESSIONS EVALUATION

Medical School Applicants

Complete the following section and submit with your completed CHP application for your Committee on Health Professions evaluation. This reflects what is required on the AMCAS application.

Work and Activities

This section will allow you to enter any work experience, extracurricular activities, awards, honors, or publications that you would like to bring to the attention of your medical schools.

- A **maximum of 15 experiences** may be entered; however you can enter up to four (4) occurrences for each experience. You have up to **700 characters** for each experience.
- Enter only significant experiences, knowing that medical schools are interested in quality rather than quantity (i.e., you do not have to use all 15).
- Work and activities will appear on your application in chronological order. Please do that in this document.
- You must identify up to three (3) experiences that you consider to be the most meaningful. When you designate an activity as being most meaningful, you will be given **an additional 1325 characters** to explain why. When writing your response, you might want to consider the transformative nature of the experience, the impact you made while engaging in the activity, the personal growth you experienced as a result of your participation, and how this experience prepared or influenced your aspirational health career.
