Summary

Full Stack Web Developer with a background in creative writing that possesses strong problem-solving skills. Pays great attention to detail and presentation and is always working to improve and learn. Good communicator able to work well in teams or independently and is able to work in schedule-oriented, fast-paced environments. Focused on creating efficient and appealing applications.

Technical Skills

Javascript, HTML, CSS, React44634, Bootstrap, MongoDB, MySQL, Handlebars, Node.js, GIT, APIs, Heroku, Mongoose, Sequelize, Express, Charts.js, JQuery, Bulma, Semantic UI

Projects

Squawkr | Full Stack | Deployed: <https://squawkr-uncc.herokuapp.com/> |

Code: <https://github.com/Savage1005/Squawkr>

Squawkr is a social media app that we made as a group project. It allows you to create your own profile page and you can add posts to the main page and delete them from your profile page.

- **Role :** Implemented passport to authenticate the login. Used semantic ui as the framework to design the layout. Worked on both front and back-end
- **Utilized :** Javascript, HTML, CSS, Moment.js, Passport, Semantic UI, Sequelize, Handlebars

Boss Budget | Full Stack | Deployed : <http://boss-budget.herokuapp.com/> |

Code: <https://github.com/Savage1005/Project-3>

Boss Budget is an application that allows users to build a budget and track expenses, income, and savings to help manage their spending. This was a group project.

- **Role:** Learned how to work with Chart.js and React-ChartJS-2 to be able to implement dynamically rendered charts to display our data in a clear and precise manner. Implemented the delete function for the data.
- **Utilized:** Chart.js, React-ChartJS-2, Bootstrap, CSS, React, MongoDB, Mongoose

Something Different | Front-End | Deployed : <https://bmcart3.github.io/Something-Different/>

Code: <https://github.com/Savage1005/Something-Different>

Something different is a fun website designed to help you find a new hobby. We implemented the MediaWiki and Youtube APIs to display data for hobbies that a user selects. We worked the Youtube API to return tutorial videos of the selected hobby.

- **Role:** Designed the front end UI by learning and implementing Bulma as our CSS framework. Built the carousel and created the links from the images. Implemented data from APIs.
- **Utilized:** HTML5, CSS3, Bulma, Javascript, Web APIs

Experience:

The Dreamchaser's Brewery ; Waxhaw, NC

2016-2020

Assistant Brewer

Formulated recipes and maintained fermentation and packaging schedule. Brewed on the main system as well as the pilot system. Logged inventory. Monitored all aspects of fermentation. Carbonated the product to the appropriate level. Cleaned and sanitized equipment. Represented the brewery at functions. Created the recipe for a beer that won the gold medal at the US Open in the most competitive category in 2017. Along with the Head Brewer, won several other medals in the US Open and other competitions.

The Unknown Brewing Company; Charlotte, NC

2015-2016

Head Cellarman

Controlled all aspects of cold side fermentation according to the operating procedures. Cleaned and sanitized tanks and equipment. Packaged product. Monitored the development of beers. Brewed pilot batches. Maintained inventory reports. Harvested and maintained yeast cultures. Represented the brewery at events.

Steven L. Maher and Associates; Charlotte, NC

2009-2015

Appraisal Trainee

Accomplished determinations of real estate and property value for single family residential, multifamily residential, townhomes, and condominiums. Conducted desktop analysis for purposes of providing an overview of property. Created Apex sketches of property and dimensions. Researched tax values of properties.
