

Facebook hackathon project - onboarding bot

- Hackathon homepage: <https://fbmessaging1.devpost.com/>

Onboarding bot

- This bot should help to new employees with their onboarding
- Our app is written in NodeJS and is running here: <https://fb-onboarding-bot-development.ack.ee/>
- FB page where you can test our bot: <https://www.facebook.com/FB-Hackathon-Onboarding-bot-102414048062999>
- The 499418056 user is added to our FB app as tester, FB app: https://developers.facebook.com/apps/657105308433778/dashboard/?business_id=219886438613216
- **Developers:** [Stefan Prokop <sprokop1010@seznam.cz>](#), [Jakub Baierl <groover@totineze.ru>](#)
- The demo video: **TODO**

Airtable

- The HRs can edit Airtable tables (reminders and Q&As)
- Reminders are messages which employee will get at specified time
- Q&As are special keywords or sentences on which chatbot returns an answer

For hackathon commission

- You can take a look or use our Airtable tables
- If you create a new job title it has would not have any effect because the table IDs are stored in the app config (in source code)
- You can easily edit data after the Airtable login / registration (this is a share links with edit rights)
- Reminders: <https://airtable.com/invite/l?inviteId=invywvCgCVp6C1zLK&inviteToken=c6c5b8cb2b2f6b7fee59a748064359a726d36e2077a4f01b037e15f800c22d7d>
- Q&A: <https://airtable.com/invite/l?inviteId=inv5e31FIUZjthObf&inviteToken=5fe5634757a8fe84cd3a241a918684de3d19ca15570827c7ba84cee81e15ca58>

Reminders table

- <https://airtable.com/invite/l?inviteId=invywvCgCVp6C1zLK&inviteToken=c6c5b8cb2b2f6b7fee59a748064359a726d36e2077a4f01b037e15f800c22d7d>

- When user is registered the registration date is set in the database
- The First remind (Hours) column say after how many hours will be this notification send
- The First repeat (Hours) column say after how many hours from the previous remind will be send the next notification
- The last column Number of repeats say how many times will be this notification send
- Take a look at the tables - each working group has their own notifications

Q&A table

- <https://airtable.com/invite/l?inviteId=inv5e31FIUZjthObf&inviteToken=5fe5634757a8fe84cd3a241a918684de3d19ca15570827c7ba84cee81e15ca58>
- If user dont know where to find some information (for example vacation) he / she can write a message to the bot and he will reply with links or other info
- First column question is the question keyboard
 - There can be more then one key but it must be separated with ;
- The second column Answer is the answer which will bot send you back

Reset users

- If you want to reset users - clean / reset the user database you can paste this link to the browser and it should be clean (there is no back step!) - <https://fb-onboarding-bot-development.ack.ee/reset-users>
