Alright, dear. Once I zip this up, you're no longer yourself. You're my doll who is going to help me entertain some very close guests of mine tonight. We are going to spend the afternoon making sure that you are prepared to handle everything tonight. That way you don't embarrass me in front of my guests but also get to show off how well trained you are. This is something we have been working towards. Before I close you into the latex suit, I wanted to make sure you still want this. Once the zip closes up, the only way you'll be able to get out is if you say your safeword. Do you understand?…Then remind me what your safeword is?…Very good, dollface. **[zipper sfx]** Closes up perfectly, a latex suit made custom for your body, fits just like a glove. Sealing you in completely, how do you feel?….Despite you being completely covered, it leaves nothing to the imagination. Open crotch gives me easy access to all the important bits while the mask keeps you anonymous. Only your eyes and mouth can be seen with two little holes for your nose. This is how I'm used to you looking, dolly. Look your best all covered up like this, now, lay on your back and dangle your arms and legs for me.

[shuffle] Going to cuff you into it so you don't have to worry about going anywhere. From this moment going forward, you are not to move. **[cuffs x4]** You are going to try your best not to move. You are not allowed to talk without permission either. You may moan, whine, whimper, but you are not to speak. If you do not trust yourself, you may ask for a gag. This is the only time I am giving you this option. Would you like it?…Alright, I'll make sure to give you an o-ring gag as well. That way we can still use your mouth. What is the point of a fucktoy if you can't play with every hole? It would just be a waste. **[shuffle]** Wrapping the leather around your face, it's not too tight, is it?…Thatta doll. **[cuffs]** Why don't you try to speak?

…Listen to how pathetic you sound, it's absolutely perfect for you, dollface. **[heels]** Walking my way around you, you strain to follow me but with the position you are in, you can really only move your eyes. Arms, leg, neck, all kept neatly in place with a gag between your teeth. Show me your safe signal? **[three pats]** And if you need a break, what do you do? **[two sets of two]** Very good. Now, I'm sure you are curious as to what the plans are for tonight. When I mentioned we were going to be having a dinner party tonight, you seemed excited at the premise. Happy to finally be back in use, you didn't even ask who was going to be there, what was going to be expected of you. You were just excited to make yourself helpful again. It's alright. I know how it must feel as a toy. Only useful when you are being played with. Don't worry. My plans are to break you down before tonight so when all my friends come over, there is just a pliant and obedient dolly for them to fuck.

[wet noises start] Sliding one finger inside your needy hole, say "thank you, mistress"…Those garbled noises sound like music to my ears, doll. Starting with one finger, I'm going to slowly open you up so that you can take the fucking machine. Then I'm going to watch as the machine takes you apart, piece by piece, until nothing is left but a puddle of pleasure. And the best part? You are only going to let go when I say. You don't to cum whenever you want because you're a doll. Dolls don't get to decide things for themselves. Dolls are objects that are meant to be played with. And that's what Mistress is doing, playing with her favorite toy. Take my finger so easily inside you. Can feel your warm hole shuttering around me, trying to keep me inside as I continue to thrust in and out. Wish I had a cock so I could feel this wrapped around me. Just going to have to settle for how tightly you grip my finger. You don't mind, as long as you are filled, you are happy, aren't you?

…Because you are just a simple minded fucktoy. That's all you will ever be. Not even a person behind the latex. Just an anonymous dolly, someone for my friends to play with, someone for me to fuck, and then place back on the shelf when done. Can't help but moan as you feel a second finger slide alongside the first. Sliding in and out, you feel yourself getting looser. Relaxing into my touch, that's it. Can see your toes twitching as the fingers scissor inside you, helping you open for me even more. You're going to be so grateful for this later tonight. Going to be so happy I took my time opening you up. Couldn't trust my friends with something like this. They would all be too eager. Can already imagine how Vanessa would just line her strap up and slide all the way in. I'm doing this for you. Let Mistress hear that gratitude of yours again.

…Remembering your manners, you're so polite, dollface. It's a sign of your training, you know your place, don't even try to fight it, just embrace who you are, what you are. A needy little fucktoy who is only happy when full. **[chuckle]** My third finger feels even better as it fits in alongside the other two. Barely even notice it, distracted by how wonderful it feels. You're doing such a good job, dollface. Opening up so beautifully, what a pretty dolly you are. Giving me everything I want and look so good doing it. Make it look effortless, dollface. If you keep it up, you're not only going to make me proud, but you're going to impress all of my friends. They're going to go home and talk about you to their subs. They are going to gush about how well behaved you were, how amazing you felt, how well you handled everything. They're going to mention how you didn't cum unless you were given direct permission. Whether it was a lot of orgasms or none at all, it didn't matter to you. You knew to take it like a proper fuck toy, didn't even beg for an orgasm you didn't deserve. You're going to make me proud tonight, aren't you?

…Going to show off what a good fucktoy you are in front of all my friends. You're going to take whatever you are given happily because that's your job. This is your duty. It's what you are good at. Really the only thing you are good for. **[chuckle]** Starting to rock your hips against my finger, it feels good, doesn't it?…If you need to cum, then you can cum. In fact, I'll start pressing against that special bundle of nerves inside you. Massaging it, starting to focus all my attention on it, you can't help the pleasure that shoots through your body. Stars light up behind your eyes as you begin to leak. Making such a mess on the leather underneath you, going to have to get you to clean that up with your mouth later. Right now, I want you to cum for me, dollface. Cum before I even fuck you, before my friends are over, cum because you can't control how good it feel. You can do it. I know you want to, can feel it from how you clench and unclench around me. Barely in control of yourself, it's alright. That's why I'm here. That's why you are tied to the breeding bench. You don't need to be in control. Let go, doll. Cum for Mistress **[listener orgasm]** Aw, just like that, let it all out. **[chuckle]** Making such a big, wet mess underneath. Didn't even realize you were that close, did you?

…It's a good thing Mistress did. **[chuckle]** Now I'm going to move to the side and let the machine do the hardwork for me. Since you're going to be in constant use tonight, I want you to get used to the sensation. I want you to be so fucked out by the time the party comes, that you don't even know what's going on. You're going to be an oversensitive, overwhelmed, fucktoy. How you were always supposed to be. Keeping you any other state should be illegal. You look your best when you are desperate and begging to cum. **[chuckle // heels]** Listening to me start to get closer, the remote control holds tight in my head. You feel the head of a dildo brushing against you but you can't tell which one it is. You don't know how big, how thick, what color, what shape. It could be anything, couldn't it?

…Let's see if you can guess it. **[click // slow]** Blunt head starts to thrust inside, the cold machine doesn't take a break, doesn't need a rest, it just shallowly thrusts in and out. Can make it go deeper if you want but thought you would appreciate this more. **[chuckle // shuffle]** Besides, you're going to be making yourself useful. You can actually see something, it's my pussy as I get ready to take my seat on your face. While the machine fucks you, you're going to eat me out. Maybe if you're lucky I'll start playing with you. Haven't decided because I just want you to make me cum. Got so wet fingering you, dolly. Thought to myself, why should I have to suffer and just watch you be fucked? There's a simple solution. I can have fun and make proper use of my fucktoy. Now put that tongue of yours to proper work, dollface.

Ngh, yeah, there you are. Can feel your tongue starting to lick my pussy lips through the gag. Knew there was a reason I used this one. Now your pathetic little moans are going to be muffled as I start to rock my hips against you. Go on, tongue fuck me dollface. Shove it inside me, taste how wet I am. If I'm being honest, it's really the only part of your body that I let inside me. You don't deserve to feel my pussy with anything else. You need to earn it and you haven't yet. Maybe you will tonight. Maybe I'll actually let you fuck me instead of the otherway around. **[chuckle]** Who am I kidding? We both know that will never happen. You don't even want that. Like how it feels to have a dildo inside you, don't you?…Feeling the cock thrust in and out at a maddening pace, especially since you just came. Already left sensitive and twitching, the machine doesn't care. The machine has a job to do and I hold the remote meaning I control the pace, I decide how good you get to feel. Don't even know if you would be able to handle me playing with you right now. Should I try?

…Leaning over and starting to touch you gently, can feel how your hips buck into my touch immediately. Didn't realize you would be this sensitive to my touch. Especially after cumming once already. Trying to ignore how the cock hasn't sped up, you find yourself relaxing into the sensation. Once you get used to it, it almost feels nice. Like you could get used to the cock lazily fucking in and out of your hole. What a good fucktoy you are. Happily accepting your place, know exactly where you belong. Such a good fucking dolly. Trying to reach towards my clit, your wet tongue laps at every inch. Trying to memorize the taste, as the fucking machine keeps pounding away. Think it's time to speed up, doll. You seem a little too comfortable for my liking.

[click // speed up] Good thing I can change that in an instant. **[chuckle]** Aw, does that feel good? Better not start paying more attention to yourself then me. I can always stop stroking you. Is that the distraction, fucktoy?…I mean, it doesn't really matter what you want. I want to keep my hands busy so I'm going to keep rubbing you, just like this. Letting the toy piston into your fuckhole, you can't help but moan against my clit. Trying to flick it with the tip of your tongue, that's a good dolly. Ngh, you're rewarded with my hips starting to grind against your face, encouraging you to lick harder, to lick a bit faster. I know I trained you better than this. Are you really going to disappoint me? Am I going to have to find someone else to be my entertainment for the night? Destiny was so lucking forward to feeling your tongue against her clit. I wanted to watch as Vanessa fucks into you and Destiny takes your mouth. Leaving me to enjoy my ride against your thigh and teasing your most sensitive parts until you are begging for some sort of release. You cum only when mistress gives you permission, don't you?

…Because you're a well trained doll. You know your place, you know your part to play. It's why you keep paying such careful attention to my clit, feeling the way I'm moving against you, working with it, encouraging me to grind even harder. Love how Mistress tastes, can't get enough of how I smell. It's going to be all over your face, you're not going to have a way to wipe it off. Suppose that doesn't matter when I'm stroking you as quickly as I am. Quickly urging you towards your second orgasm. Be a good doll, and let go for me. I want to feel you cum against my hand. I know you are still so sensitive, practically throbbing in my touch. Don't deny yourself the pleasure, doll. I want you to let go. You can do it. Cum from eating my pussy, from the machine fucking you. Cum like the proper fucktoy you are. **[chuckle]** That's right. Eat me through your orgasm. You don't get to stop just because you are having an orgasm. In fact, I think I'm going to speed the machine up.

[click // fast] Maybe you'll cum for a third time. It doesn't matter to me. You're just a doll who is here to do as I say. You don't get to have an opinion on this. You want this. You need this. Eagerly licking my pussy, making sure not a drop of slick goes to waste, you worship what you can't have. Only get to feel it likes this because that is all you deserve. A doll knows their place and that's what you are. Just an object that has no purpose until Mistress gives you one. Not going to give you more than you can handle. It's why my hand has left despite the machine speeding up. Don't say I've never done anything for you. **[chuckle]** Oh yeah, that's the spot. Do that with your tongue again. Mng, fuck. You're doing such a good job, continuing to work me through your orgasm. That's why you are the entertainment tonight. No one can compare to the best. You're just perfect, dollface. Ngh, going to make me cum like a good fucktoy, aren't you?

…It's the whole reason I'm sitting on your face. Practically drenched in my juices, it only makes you go faster, work harder. Wish you could grip my hips and pull me against your face, the restraints keep you firmly in place. Taking the fucking machine, you find yourself quickly on edge again. Didn't realize you were going to be left so sensitive from your second orgasm, you feel overstimulation settling in. You twitch away from my hands, bucking away from it, bucking towards it, you don't know if you love or hate it. You just know you want more. It's alright. Going to cum for a third time, dolly. Going to cum with me, aren't you?…Barely takes anything to get you to the edge when you are like this. Teetering on the edge as my hand strokes you. Can feel my clit starting to twitch against you. Ngh, yeah. I'm getting close. Going to cum with me? Think you have a third orgasm in you?…I think you do, dollface. Come on, make me proud. **[adlib mutual orgasms]** Oh you enjoyed that, didn't you?

…**[click // slow // chuckle // shuffle]** Letting myself off of your face, you feel the machine slow back to that first maddening pace. I'm going to leave you at this pace for the next twenty minutes. Don't worry though, I'll be in here to keep you company. I'm going to start setting up the room for tonight. While I do that, you are going to provide the background noise for me. Consider yourself the ambience. The soft moans you provide through the gag are going to make decorating for the party tonight a lot more enjoyable. Plus, if I start to get horny or something, I can just take my seat back on your face and get a little quickie. Knowing exactly what I like, can make me cum so quickly, that's why you're the best. It's why you are the only one that I trust with a job like this. Going to make me so proud tonight, I just know it. Now be a good dolly and enjoy the machine. I'll be right back with some candles. **[kiss]** Don't miss me too much. **[heels fade out]**
