

Healthy Meals That Give Back

.....

Disclaimer

I have not obtained a permit to sell food. Even if I was evaluated for a permit, meaning the cooking space was checked for sanitation, ingredients verified, etc. I would still abide by the same standards. I am doing this for us. Our communities. Our health. My statement to you, I will be eating the same meals that you have purchased, I will handle all food in a sanitary environment, and I will do what I say. If/when 300 meals have been purchased and 200 meals have been donated, I will obtain the necessary permits to scale and create a greater impact. Thank you for your continued support.
