

Privacy Policy – „Lockscreen Go Screensaver“

(Old names: Lockscreen Go Pocket Protect)

1 Terms

This app does not collect any data, use data, process data. This is just a tool to create a black screensaver over other apps without the need that your phone has to go in standby (and pause specific apps/lock the phone). Therefore the privacy policy has nothing to state. This policy can change in the future. For functionality and usage refer to TOC/AGB or the apps store listing. That's it, have fun.
