Minecraft Treehouse Challenge Narrated Slideshow Script

Instructions: With your partner, create a narrated slideshow video using the iPad app “Explain Everything” to share what you built and learned during the Treehouse Challenge Project. Include at least 4 slides, modify the suggest script below as desired. Use only your FIRST NAME in the script/video.

SLIDE 1: Introduction - Assigned to _____

Hello, today is April _____, 2015, and this is _____ in Mrs. _____'s homeroom class at Independence Elementary in Yukon, Oklahoma. In this video, _____ and I are going to share a little bit of our learning from the Minecraft Treehouse Challenge. This is a project we just completed in our STEM class.

SLIDE 2: Area - Assigned to _____

In the Minecraft Treehouse Challenge, we were asked to build the coolest treehouse we could in MinecraftEDU with our partner. It needed to include ladders, windows, doors, and torches. We also had to include at least one square room which had an area of exactly 25 blocks. This is a picture of a 5 by 5 room in Minecraft. I will calculate the area for you. We find area by multiplying the length times the width. 5 times 5 equals 25. So the area of this room is 25 blocks. Something special about our Minecraft treehouse was _____.

SLIDE 3: Perimeter - Assigned to _____

In the Minecraft Treehouse Challenge, we also had to build a fenced corral that had a perimeter of 24 and included a gate. We find perimeter by adding up all the sides of a polygon. In this case the polygon was a rectangle. We could build our perimeter 24 corral with any of the following dimensions: 2 by 10, 3 by 9, 4 by 8, 5 by 7, or 6 by 6. This is a picture of a corral in MinecraftEDU. I will calculate the perimeter for you. First I will count the length of each side..... Now I will add up all the sides..... So the perimeter of this corral is _____ blocks. Something special about our Minecraft corral was.....

SLIDE 4: Something Cool - Assigned to _____

Now we'd like to teach you about some cool things we built and did in the Minecraft Treehouse challenge that were special and unique.
