

Graduation Photograph Information

After next week, it will take some time for LifeTouch to process the photos through their lab however as soon as the photos are ready, parents will receive an automated email letting them know their images are available to order. If we don't have an email on file, we default to using a home address to mail the same notice home.

If parents visit the website before the images are fully processed and available for ordering, they will see an area where they can enter their contact information to ensure they receive an automated email address. This step is not required, since we have parent emails on file for each school provided to us by the District, it's just there as a service if parents visit the site before the photos are ready and available for ordering.
