

Hello Everyone!

As an ensemble member (or a main role that pops in as an ensemble before or later), here are my notes from today but also who should be singing what (Oompa songs being the most important). Please practice these and have them memorized within a week! My biggest concern are your **entrances**, please practice these so you can confidently come in when you are supposed to! Please practice this with your friends or even the app, this could really help! We have 2 and a half weeks, let's not look cooked in front of our audiences please lol.
