

E A E

I will run this race

E A E

As you light my path

B C#m B E

On a weary road

B C#m B E

I fear my lack of strength

B C#m B E

Will I stay with you

A E A E

As you stay with me

A E A E

As you stay with me

I see your beauty

In my own defeats

You lift my head up high

Guide my feet to stable ground

May I rest in your grace

As you stay with me

As you stay with me

Be my strength, my guide

As I am refined

I long for love, I long for peace

I long for calm in the deep

Let me be your light

As you stay with me

As you stay with me
