POLICY DETAILS

In accordance with OCGA §20-2-771.2, this school shall have a school health nurse program. The program shall be staffed by a licensed health care professional and may include consultation with offsite health care professionals through appropriate protocols and contracts. Under this program, licensed health care professionals shall provide school-based health services, including but not limited to monitoring, storage, and administration of medication to students with medical conditions. They may also train and supervise other personnel in the

administration of medication or related duties, as appropriate.

The Principal shall establish procedures to implement the provisions of this policy, including but not limited to detailed rules regarding the duties assigned to the designated health care professional the circumstances in which students may be administered or self-administer medications while at school or school-related activities.

All personnel performing services under this policy are subject to the restrictions set forth in O.C.G.A. §20-2-773, specifically, none of the following health services shall be provided to public school students pursuant to this policy:

- Distribution of contraceptives;
- Performance of abortions;
- Referrals for abortion; or
- Dispensing of abortifacients.
