# Privacy Policy for PDF Fix

Last Updated: October 2026

PDF Fix ("we", "our", or "the app") is committed to protecting your privacy and personal data. This Privacy Policy outlines our principles and practices regarding the collection, use, and handling of information when you use the PDF Fix mobile application.

## 1. 100% Offline Processing & Zero Data Collection

PDF Fix is architected as a completely standalone, offline utility.

- We do NOT collect, harvest, monitor, store, or transmit any personal identifiable information (PII).
- We do NOT collect contact lists, phone numbers, email addresses, location coordinates, or device identifiers.
- The app operates without requiring user registration, accounts, or logins.
- The app contains no third-party tracking libraries, analytics trackers, or advertising SDKs.

## 2. On-Device Document Security

All document processing—including Image to PDF conversion, 2-in-1 ID card scanning, vector digital signatures, AES-128 password encryption/decryption, PDF compression, page reordering, and watermarking—is executed entirely within your device's local memory.

- Your photos, scans, signature files, and PDF documents never leave your physical device.
- We have no access to your documents, and no files are ever uploaded to cloud servers or external networks.

## 3. Device Permissions and Usage

PDF Fix requests only the minimal system permissions strictly required for its core utilities:

- Camera: Used in real-time solely when you choose to capture documents or ID cards using the in-app camera scanner. Captured images are stored only in your local app storage or gallery.
- Photos / Media / Storage: Used exclusively to enable you to import images from your gallery for PDF conversion and to save exported PDF documents to your device.

You can grant or revoke these permissions at any time through your Android device settings.

## 4. Third-Party Services

PDF Fix does not integrate third-party advertising networks, payment processors, or behavioral analytics providers. Your usage habits and files remain completely private to you.

## 5. Children’s Privacy

PDF Fix does not knowingly collect or solicit any information from anyone, including children under the age of 13. The app is a general-purpose offline document tool suitable for general audiences.

## 6. Changes to This Privacy Policy

We may periodically update this Privacy Policy. Any modifications will be reflected by the "Last Updated" date at the top of this document.
