

[FWP seeks members for mule deer panel as commission restricts doe hunting in Eastern Montana](#) January 8, 2024 Montana

Billings Gazette

... Mule deer populations have declined in southeastern Montana from their most recent peak in 2020, according to FWP. Back then, 11,000 mule deer B licenses — good only to hunt antlerless deer — were issued. This past season that was cut to 1,000 B licenses. Overall, the region's mule deer population is [48% below](#) the long-term average...
