

Justification to Attend — Lubrication School Level 1

A summary to support approval for attending Lubrication School Level 1 (LB1).

Dear [Manager's name],

I'd like to attend Lubrication School Level 1 (LB1) with Asset Schools. Below is a summary of what the course covers and the value it will bring to our team, to support your approval.

About the course

Lubrication School Level 1 provides the essentials of proper lubricant application while instilling proven industry methods for selecting, storing, filtering and testing lubricants for improved machine reliability. You will move beyond the dated methods of vague, non-specific lubrication procedures to understand what to do and why there is a right way to do it.

What the course covers

- Establishing the Importance of Good Lubrication
- Lubrication Theory
- Raw materials (Base Oils, Additives & Thickeners)
- Manufacturing Lubricants
- Lubricant Properties
- Selection of Lubricants
- Storage and Handling
- Application of Lubricants
- Maintenance of Lubricants
- Contaminant Removal
- Degradation of Oil
- Machine Wear
- Used Oil Sampling
- Testing of Used Lubricants
- Analysis of Used Lubricants

Course objectives include

- A solid understanding of the crucial relationship between lubricant health and machine reliability.
- How doing simple tasks and inspections right significantly extends machine life and cuts costs.
- A better understanding of oil analysis, so I can align my efforts with maintenance professionals and oil analysis experts.

What's included

- Three days of instruction with case study-led learning.

- Practical templates and tools I can apply immediately back at work.
- A comprehensive colour course manual.
- Certificate of completion.
- CPD hours that count toward my professional development requirements.
- Lunch, morning and afternoon teas throughout
- Networking evening to connect, learn and share with instructors and peers.
- Ongoing platform access to videos, white papers, research, and podcasts.
- Access to monthly 90-minute maintenance and reliability masterclasses.
- The option to become certified through ICML (see Certification, below).

Certification

On completing the course I'll be eligible to certify with the International Council for Machinery Lubrication (ICML). Certification confirms I have the skills to do the job and makes for a more knowledgeable, valuable team member. Learn more at icmlonline.com.

About the provider

Lubrication School Level 1 is one of a portfolio of 25 maintenance and reliability courses delivered through the MAINSTREAM Community's Asset Schools. The content is highly regarded and well-credentialed. It is kept evergreen — updated frequently and grounded in the research from MAINSTREAM's annual State of Asset Management Report. The courses are practical and built for people doing the work, so what I learn applies on site immediately.

I'm happy to discuss, and I'd appreciate your approval to attend.

Kind regards,

[Your name]
