

Today's Goal: I will be able to multiply and divide with 6 and 7 using the distributive property.

Lesson Rule(s):

$$9 \times 7 = \underline{\hspace{2cm}}$$

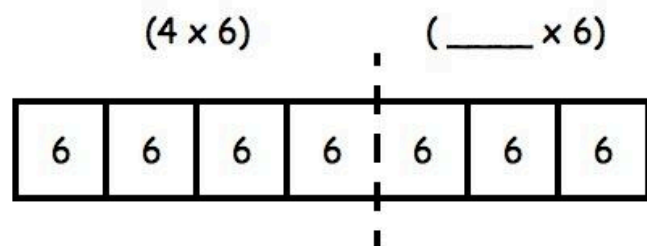

Skip-count by 6 or 7.

$$\begin{aligned} 9 \times 7 &= \underline{\hspace{2cm}} \\ &= (5 \times 7) + (4 \times 7) \\ &= 35 + 28 \\ &= 63 \\ 9 \times 7 &= 63 \end{aligned}$$

Examples:

$$7 \times 6 = \underline{\hspace{2cm}}$$

$$\begin{aligned} 7 \times 6 &= \underline{\hspace{2cm}} \\ &= (4 \times 6) + (3 \times 6) \\ &= 24 + 18 \\ &= 42 \\ 7 \times 6 &= 42 \end{aligned}$$
