

10 ROOMS OF DOOM CHALLENGE

Announcement

After a couple months away, I am excited to announce the TENTH SMM2 Twitch Collaboration Level Competition! Hosted by GLORIOUSGames, Scherbie, Royru, CozyCowGirl, Snwbear24, HylianDred, Morbo, LetsTalkGames321, Zella04 & BigJ3llyGaming.

Each one of the hosts will be scoring the levels submitted, and the person who has the highest points total wins. It is important to keep in mind that there will be quite a few streamers playing and judging your level. Their skill level will affect how they feel about your submission so you may want to visit their streams to do your research.

Contest Description

Create a level that consists of 10 Rooms, these rooms can be any kind of room you want and any style in the game. These rooms can be screen locked, you might decide to do 10 one screen rooms, or 10 full rooms, the choice is yours. Rooms CAN NOT be reused, even if you edit or manipulate a previous room to play differently. Being a 10-room challenge, either Checkpoints or Unlimited CP Set Up would be HIGHLY recommended.

Rules

1. Due to the nature of this stipulation, Streamers will have 20 Minutes to Play your level, and after that time is up, the level must be judged and scored (Keep in mind, some streamers will publicly share their scores, and some will not, this will be left to judges' discretion).
2. Non-Family Friendly Aesthetics in levels will not be accepted, this is due to having Family Friendly Streamers and keeping in line with their channel rules.
3. **No old levels**, all levels must be strictly created for this competition.
4. All submissions will be made to GLORIOUSGames Discord at the following link under the CONTEST LEVEL CODES Thread <https://discord.gg/bZkfcATtGp> (Please note, the channel has Non-Family Friendly Content in the NSFW Thread)
5. All submissions must be made by 11:59PM **FEBRUARY 27th 2023 EST** to be accepted into the competition.
6. ANY level that does not meet the above requirements and contest description will be automatically Disqualified and will not be played on any hosts streams.
7. All submissions should carry the hashtag of one of the level contest hosts, **e.g., #GLORIOUSGames, #Scherbie, #Snwbear24, #Royru, #Morbo, #Hyliandred, #CozyCowGirl, #BigJ3llyGaming, #LetsTalkGames321 or #Zella04** in the description (If you want to abbreviate the hashtag e.g., #BigJ3llyGaming to #BJG, that is acceptable).

Keep in mind that streamers will only have 20 minutes to play your level, try and aim for a difficulty no harder than an expert level for the chance to have the judges see your entire level within the time limit

Scoring Criteria

Below are the scoring criteria outlined for this contest, please read through this so you are aware of how we will be judging your levels. To get a higher score, you must follow the criteria as much as possible. Each Criteria will be scored out of 5 (Half Points included), so a max score would be 25/25.

Clarity & Timing - How clear is the level? Does it have the correct indication? Can you get through the level without any confusion? Does the level utilize the timer in a correct way?

Originality - It is nice to see something new, is the level creative? Or has the level used old techniques but shown in a new way?

Appearance - How beautifully decorated is your level? Has there been an attempt to make the level aesthetically pleasing? Does the level visually flow well throughout?
