SL:Free Work

Hi Arif,

Saw your interview with your student, Osej, who went up 2 grades in a month! Just shows your experience in teaching.

There's a way to bring even more students to your tuition and help them do the same.

Using an opt-in page, I got 25 leads in a month for my previous client (had less than a third of your followers) and we can scale this much higher with your online presence.

You could get **75+ leads** to directly message about Aim High Tuition, this is sure to bring you more students.

To deliver you **results without risk**, we can **test it out for free**.

If you're interested, feel free to reply so we can discuss this project further.

Abdul Malik.
